Environmental Interest/Information System:
THE EMISSION INVENTORY SYSTEM (EIS) MAINTAINS AN INVENTORY OF LARGE STATIONARY SOURCES AND VOLUNTARILY-REPORTED SMALLER SOURCES OF AIR POINT POLLUTANT EMITTERS. IT CONTAINS INFORMATION ABOUT FACILITY SITES AND THEIR PHYSICAL LOCATION, EMISSIONS UNITS, EMISSIONS PROCESSES, RELEASE POINTS, CONTROL APPROACHES, AND REGULATIONS. FACILITY INVENTORY DATA ARE KEPT SEPARATE FROM THE EMISSIONS DATA AND HAVE

MEDITERRANEAN YATCH CORP INT' (Continued) **1006093929**

STABLE IDENTIFIERS TO IMPROVE CONTINUITY FROM YEAR TO YEAR AND TO HELP IDENTIFY DUPLICATE OR MISSING FACILITIES
The Toxic Release Inventory System (TRIS) is a publicly available EPA database reported annually by certain covered industry groups, as well as federal facilities. It contains information about more than 650 toxic chemicals that are being used, manufactured, treated, transported, or released into the environment, and includes information about waste management and pollution prevention activities.

The FINDS: database may contain additional details for this site. Please contact your EDR Account Executive for more information

Environmental Interest/Information System:
The Department of Labor, Occupational Safety and Health Administration information system consists of inspection case detail for approximately 100,000 OSHA inspections conducted annually. The FRS dataset includes facilities that had inspections within the last 7 years within the mining, oil and gas, utilities, and manufacturing sectors.
The National Pollutant Discharge Elimination System (NPDES) module of the Integrated Compliance Information System (ICIS). Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.
Registry ID: 110071414818

Environmental Interest/Information System:
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Description:	RP states that an industrial building fire resulted in the release of approx 500,000 gal of fire suppression water and debris onto the ground and into Gifler Flood Control Channel. The channel is diverted and an inflatable dam is in place, all of the release is contained to the channel at this time and will be diverted to either the City of Costa Mesa Wetlands Facility or into the Orange County Sanitary Sewer System. The release was tested and was found to be neutral. Fire fighting is ongoing.

Environmental Interest/Information System:
The Toxic Release Inventory System (TRIS) is a publicly available EPA database reported annually by certain covered industry groups, as well as federal facilities. It contains information about more than 650 toxic chemicals that are being used, manufactured, treated, transported, or released into the environment, and includes information about waste management and pollution prevention activities.
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Eval General Type: Compliance Evaluation Inspection
Eval Date: 03-01-2016
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: On site for routine hazardous materials and business emergency plan inspection. The inspection was conducted with Caren Carlson. Observed the facility and inspected hazardous materials storage. The following materials were observed in amounts that meet or exceed the minimum volumes required for disclosure: - Sulfuric acid (lead acid batteries) - Mineral oil The facility is responsible for identifying and disclosing all hazardous materials, to include hazardous wastes, which are above disclosure thresholds. Disclosable amounts of hazardous materials are as follows: 55 gallons or more of liquid, 500 pounds of solid, and/or 200 cubic feet of gas. If there is a change in the type or amount of chemicals that are maintained on site, please submit revised documents (electronically) within 30 days of the change. Hazardous Materials documents have been submitted via the California Electronic Reporting System (CERS).

Environmental Interest/Information System:
The California Environmental Reporting System (CERS) is a statewide web-based user and information exchange system to support over 140,000 regulated businesses and over 130 local agencies in electronically collecting and reporting significant hazardous materials, hazardous waste and compliance and enforcement data as mandated by California law. Under oversight by Cal/EPA, certified local governing agencies

SOUTHERN CALIFORNIA EDISON TALBERT SUBSTATION (Continued) **1016714937**

(Unified Program Agencies - UPAs) consolidate, coordinate and provide consistent regulatory activities for six state and federal environmental programs.
The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS),EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), andToxic Release Inventory (TRI).

The FINDS: database may contain additional details for this site.

Citation:	2014-0057-DWQ - Industrial General Permit
Violation Description:	SW - Deficient Report
Violation Notes:	After reviewing the Ad Hoc Reports from 2019-2020 reporting period, Regional Board noted a reporting error in Report ID 1095023 for Zinc and Magnesium.
Violation Division:	Water Boards
Violation Program:	INDSTW
Violation Source:	SMARTS,

Site ID:	525971
Site Name:	Aluminum Precision Product
Violation Date:	07-30-2018
Citation:	2014-0057-DWQ - Industrial General Permit
Violation Description:	SW - Deficient BMP Implementation
Violation Notes:	Air conditioner condensate observed flowing outside the facility and into the associated parking lot.
Violation Division:	Water Boards
Violation Program:	INDSTW
Violation Source:	SMARTS,

Evaluation:

Eval General Type:	Compliance Evaluation Inspection
Eval Date:	07-30-2018
Violations Found:	Yes
Eval Type:	Industrial Storm Water Compliance Evaluation

Eval Notes: Regional Board staff conducted a compliance inspection of the above facility on July 30, 2018. Staff met with Mr. Ron Awrey, Plant Engineer. The SWPPP and training records were reviewed and up to date. The facility is currently in Level 1 for Copper, Magnesium, Nitrite Plus Nitrate, and Aluminum. The facility is also in Level 2 for Iron and Zinc. The Level 1 ERA Report and the Level 2 ERA Action Plan were reviewed and all BMPs have been implemented according to the BMP implementation schedule. Two storm water samples were collected this reporting year and still showed high parameter results. Mr. Awrey will be analyzing why the results are still high and looking into other pollutant sources at the facility. A site walk was then conducted. The facility conducts housekeeping regularly with a sweeper. A new permanent shelter was installed over exposed industrial materials and equipment. Chemicals are stored behind a secondary containment berm. Stormwater sumps and treatment systems are located at Outfalls 3, 4, and 5. Exposed industrial materials located outdoors are stored on pallets and covered with tarps. Waddles are installed at all Outfalls. A non-stormwater discharge was observed, from air conditioner condensate, co-mingling with industrial materials and flowing out of the facility into the associated parking lot. Mr. Awrey noted the

ALUMINUM PRECISION PRODUCTS INC (Continued) **1000300337**

condensate will be contained.

Eval Date: 07-21-2010
Violations Found: No
Eval Type: Industrial Storm Water Compliance Evaluation
Eval Notes: Site is composed of buildings on either side of W. Central Street. Site is extensively stained with graphite powder. Graphite is used as a lubricant in steel forms used to cold press aluminum. Final product is cleaned of graphite and oil using a series of chemical baths with a final rinse in RO-treated water. Final rinse-water was observed spilled onto ground in two puddles incidental to removing finished product from the final rinse tank; water drips off the final product and the basket its in onto the ground in an area covered by an overhang. However the quantity was sufficient to cause one puddle to run out into an uncovered area. Facility has a filter press which uses a flocculant to remove metal particals and graphite from the rinsewater. The filter press is located outside in a bermed area. 'Cake' from the press was found spilled in contained area; however incidental spray of the wastewater resulted in staining on the ground outside of the contained area. Numerous instances of uncovered scrap metal bins and rusting steel were observed; however, contact states that these are covered during the rain and contact showed the location where the tarps are stored. Contact states that the yards are "scrubbed" weekly with a soap solution using a machine that also vacuums up the rinsate. This machine was observed. North yard was found coated in black dust that is a combination of graphite and forklift tire wear; contact acknowledged that this area was not scrubbed routinely. Preliminary review of last five years of monitoring results indicates periodic exceedances of benchmarks for TSS and conductivity. Site has 6 monitoring points. Contact stated he has a continuous and complete record of monitoring beyond 5 years. I recommended that contact use this record to identify the locations of these exceedances and take steps to identify their cause and mitigate them. Contact agreed to begin routinely scrubbing the north yard.

Environmental Interest/Information System:
All generators and treatment, storage, and disposal (TSD) facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years. The data collected is used to create the National Biennial Resource Conservation and Recovery Act (RCRA) Hazardous Waste Report. This data is processed within the RCRA Information (RCRAInfo) database
THE EMISSION INVENTORY SYSTEM (EIS) MAINTAINS AN INVENTORY OF LARGE STATIONARY SOURCES AND VOLUNTARILY-REPORTED SMALLER SOURCES OF AIR POINT POLLUTANT EMITTERS. IT CONTAINS INFORMATION ABOUT FACILITY SITES AND THEIR PHYSICAL LOCATION, EMISSIONS UNITS, EMISSIONS PROCESSES, RELEASE POINTS, CONTROL APPROACHES, AND REGULATIONS. FACILITY INVENTORY DATA ARE KEPT SEPARATE FROM THE EMISSIONS DATA AND HAVE STABLE IDENTIFIERS TO IMPROVE CONTINUITY FROM YEAR TO YEAR AND TO HELP

ALUMINUM PRECISION PRODUCTS INCORPORATED (Continued) **1016112348**

IDENTIFY DUPLICATE OR MISSING FACILITIES
The Air Facility System (AFS) contains compliance and permit data for stationary sources of air pollution regulated by the EPA, state, and local air pollution agencies.
ICIS-Air (AIR) AIR is the modernization of the Air Facility System (AFS) into the Integrated Compliance Information System (ICIS). AIR contains enforcement, compliance, and permit data for stationary sources of air pollution regulated by the EPA, State, and Local air pollution agencies.
The Toxic Release Inventory System (TRIS) is a publicly available EPA database reported annually by certain covered industry groups, as well as federal facilities. It contains information about more than 650 toxic chemicals that are being used, manufactured, treated, transported, or released into the environment, and includes information about waste management and pollution prevention activities.
The Integrated Compliance Information System (ICIS) provides a database that, when complete, will contain integrated enforcement and compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions and a subset of the Permit Compliance System (PCS), which supports the National Pollutant Discharge Elimination System (NPDES). This information is maintained in ICIS by EPA in the Regional offices and it at Headquarters. A future release of ICIS will completely replace PCS and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities that support compliance and enforcement programs, including incident tracking, compliance assistance, and compliance monitoring.
The National Pollutant Discharge Elimination System (NPDES) module of the Integrated Compliance Information System (ICIS). Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.
The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS),EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), andToxic Release Inventory (TRI).
The Department of Labor, Occupational Safety and Health Administration information system consists of inspection case detail for approximately 100,000 OSHA inspections conducted annually. The FRS dataset includes facilities that had inspections within the last 7 years within the mining, oil and gas, utilities, and manufacturing sectors.

ALUMINUM PRECISION PRODUCTS INCORPORATED (Continued) **1016112348**

California's Hazardous Waste Tracking System Data Mart (HWTS-DATAMART) provides information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

Description: ***HISTORICAL REPORT*** RP states, A business has several areas on the ground covered by hydraulic oil and several secondary containment units that are suspected to be releasing into the ground water table. Currently it is estimated that 15-20 gallons of hydraulic oil is released per day. This is happening in multiple buildings on the responsible party's property. The material on the ground is a hazard for walking.

Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.

Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Site Name: ALUMINUM PRECISION PROD INC
Violation Date: 05-13-2014
Citation: HSC 6.67 Multiple - California Health and Safety Code, Chapter 6.67, Section(s) Multiple
Violation Description: Haz Waste Generator Program - Operations/Maintenance - General
Violation Notes: Returned to compliance on 07/18/2014. The facility has two aboveground storage tanks used for accumulation of oily water. These hazardous waste tanks must be labeled as "hazardous waste" with the beginning accumulation date. The tanks are subject to Article 10 in 22CCR, which describes Tank Systems requirements. For tanks used for accumulation of non-RCRA waste, an exemption may be granted by this Agency as specified in 22 CCR 66265.192(j), provided the minimum criteria is met.

Violation Date: 05-13-2014
Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Description: Failure to properly label hazardous waste accumulation containers with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.
Violation Notes: Filter cake and process debris roll-off bins are not labeled with the hazardous characteristic. The containers were properly labeled during the inspection. This violation was corrected during the inspection. No further corrective action is required.

Eval Notes: INSPECTOR COMMENTS On site for routine Tierred Permitting PBR hazardous waste treatment inspection. Consent to enter, inspect, and take photographs was given by Ron Awrey. The facility conducts treatment of watery wastewater sludge. The sludge is dried in an oven. The dried sludge is hauled as non-RCRA hazardous waste. There have been no changes to the system or releases within the previous three years. The following documents are available for review: Waste Analysis plan, treatment log, daily inspection log, written inspection schedule, operating instructions for the treatment unit, current closure cost estimate, sewer agency discharge records, and the PE certification for the secondary containment dated June of 2019. The PE certification must be conducted every 5 years.

Eval Notes: On site to conduct an Aboveground Petroleum Storage Act (APSA) inspection. Gregory Maratas of Aluminum Precision provided a tour of the facility to inspect the petroleum storage areas. No evidence of any leaks were observed. The tank located in a vault is over 1,320 gallons and is being managed under APSA and not under Title 23 as a visually monitored underground storage tank. The Spill Prevention, Control and Countermeasure (SPCC) plan was reviewed on 1-26-17 with Ron Awery of Aluminum Precision. The following was observed as part of the SPCC plan: - Daily inspection logs - The plan was updated 10-24-13 to updated the CUPA telephone number - the plan was last reviewed 12-1-12 - The Certification of the Applicability of Substantial Harm Criteria is located in Appendix D - Various training occurred during the month of July 2016 - Currently the facility operated 24 hours a day for six days. Security is accomplished with fencing, control access and patrol [Truncated]

Eval Notes: Please be advised that this Agency has reviewed the Tiered Permitting Financial Assurance Self Certification submitted to CERS on 3/27/17. Closure Cost Estimate (CCE) submitted ($2,940.50) this date changed from previous estimates ($2,608.87) submitted on 2/7/17 and 2/16/17 and is not properly calculated. The initial closure cost for the treatment system in 2009, was reported at $2,360.00, and with inflation factor applied in subsequent years, the 2017 closure cost is ($2,608.87). Your 2016 CCE was approved at $2,575.39. Therefore your 2017 CCE is $2,575.39 multiplied by a factor of 1.013 which is $2,608.87. Corrected Certification Of Financial Assurance Form and Estimated Closure Cost form must be submitted within 30 days of this report.

Eval Notes: On site for the triennial Spill Prevention Control and Countermeasure (SPCC) inspection. Permission for inspection granted by Ron Awrey. SPCC was on site. Updated 12-2012. PE certified. 61,000 gallons of petroleum on site in 23 hydraulic presses, 4 CNC machines, 2 EDM machines, 1 polishing machine, 2 waste oil ASTs, 7 portable ASTs and ~10 55 gallon drums. All bulk storage containers have secondary containment. All oil filled machines use spill kits for emergencies. ** The CNC/EDM machine room has 1 spill kit. It is recommended that you increase the # of kits and place them near the machines or the doors in order to improve the effectiveness**. No USTs. The facility has a "zero" discharge policy. All rainwaters accumulated in secondary containment berms is removed and placed into the oil/water containers. All bermed areas have solid berms, with no valves/drains. Daily/weekly/after rain event logs used and on site. Annual training. Records are kept [Truncated]

Eval Notes: INSPECTOR COMMENTS On site to conduct an Aboveground Petroleum Storage Act (APSA) inspection. Ron Awrey of Aluminum Precision provided a tour of the facility to inspect the petroleum storage areas. No evidence of any leaks were observed. The tank located in a vault is a 5,000 gallon tank being managed under APSA as a Tank in an Underground Area. The Spill Prevention, Control and Countermeasure (SPCC) plan was reviewed. The following was observed as part of the SPCC plan: - Daily inspection logs - The plan was renewed in 2019 - The Certification of the Applicability of Substantial Harm Criteria is located in Appendix D - Training - Currently the facility operated 24 hours a day for six days. Security is accomplished with fencing, control access and security patrol when not operating - Level sensing is accomplished be means of a visual level tube. No APSA violations were observed this date.

CERS ID: 10153241
CERS Description: Chemical Storage Facilities

Violations:

Site ID: 91379
Site Name: ALUMINUM PRECISION PROD INC
Violation Date: 05-13-2014
Citation: HSC 6.67 Multiple - California Health and Safety Code, Chapter 6.67, Section(s) Multiple
Violation Description: Haz Waste Generator Program - Operations/Maintenance - General
Violation Notes: Returned to compliance on 07/18/2014. The facility has two aboveground storage tanks used for accumulation of oily water. These hazardous waste tanks must be labeled as "hazardous waste" with the beginning accumulation date. The tanks are subject to Article 10 in 22CCR, which describes Tank Systems requirements. For tanks used for accumulation of non-RCRA waste, an exemption may be granted by this Agency as specified in 22 CCR 66265.192(j), provided the minimum criteria is met.

Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Description: Failure to properly label hazardous waste accumulation containers with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.
Violation Notes: Returned to compliance on 05/11/2016. Two filter cake roll-off bins and are not labeled with the hazardous characteristic. They were properly labeled during the inspection. Two 300-gallon containers of oily water were not labeled with the required information. They were properly labeled during the inspection. This violation was corrected during the inspection. No further corrective action is required.

Violation Date: 05-11-2016
Citation: 22 CCR 15 66265.16 - California Code of Regulations, Title 22, Chapter 15, Section(s) 66265.16
Violation Description: Failure to provide employees within the first six months after the date of their employment, or assignment to the facility, or to work unsupervised, or to a new position at a facility with hazardous waste training to ensure employees are competent in the following areas: hazardous waste management procedures (including contingency plan implementation) relevant to the positions in which they are employed, emergency response and emergency equipment, and procedures for using, inspecting, repairing, and replacing facility emergency and monitoring equipment. In addition, the owner/operator shall ensure facility personnel take part in an annual review of the initial training and training records training records on current personnel shall be kept until closure of the facility. Training records on former employees shall be kept for at least three years from the date the employee last worked at the facility. The records shall include the following: the job title for each position at the facility related to hazardous waste management, and the name of the employee filling each job; a written

ALUMINUM PRECISION PRODUCTS INC (Continued) **U001578173**

job description for each position, duties of facility personnel assigned to each position, and a written description of the type and amount of both introductory and continuing training that will be given to each person filling a position.

Violation Notes: Returned to compliance on 07/28/2016. Eight employees that are required to receive annual HAZWOPER training have not received the training at the required interval. The training requirement is specified in the facility training documents. Please provide the required training for these employees and submit a copy of the training record(s) to this Agency within 60 days.

Eval Notes: Please be advised that this Agency has reviewed the Tiered Permitting Financial Assurance Self Certification submitted to CERS on 3/27/17. Closure Cost Estimate (CCE) submitted ($2,940.50) this date changed from previous estimates ($2,608.87) submitted on 2/7/17 and 2/16/17 and is not properly calculated. The initial closure cost for the treatment system in 2009, was reported at $2,360.00, and with inflation factor applied in subsequent years, the 2017 closure cost is ($2,608.87). Your 2016 CCE was approved at $2,575.39. Therefore your 2017 CCE is $2,575.39 multiplied by a factor of 1.013 which is $2,608.87. Corrected Certification Of Financial Assurance Form and Estimated Closure Cost form must be submitted within 30 days of this report.

Eval Notes: This Agency received and reviewed the following documents: - Manifest correction letter for manifest 007485419 dated 5/15/14 - Photo of the metal filter cake container that is now empty. Containers used for hazardous waste accumulation must be stored closed and properly labeled. If this container is to be used for hazardous waste accumulation, please make sure that it can be closed and that it is labeled as soon as the waste begins to accumulate. - Photo of the large containers used for oily water. During the inspection on 5/13/14, oily water accumulated in a hazardous waste tank. The tank has since been removed and this waste now accumulates in what the facility considers to be a container. A tank is defined as being a stationary device, designed to contain an accumulation of hazardous waste. In general, a vessel is considered stationary, and therefore a tank, if it is bolted down, has hard piping, and/or has other permanent connections. - Training plan with the [Truncated]

Eval Notes: On site for routine hazardous waste inspection. Consent to enter, inspect, and take photographs was given by Ron Awrey. The facility generates sufficient quantities of federally-regulated hazardous waste to be regulated as a RCRA large quantity generator (LQG). The facility is regulated under the CA treatment tier for filter cake sludge drying in an oven and also conducts recycling activities for waste oil. Observed the facility and inspected the process areas, treatment area, and hazardous waste storage areas. The following conditions were observed: - Hazardous waste containers are stored closed. - Filter cake and process debris roll-off bins were not labeled with the hazardous characteristic. They were properly labeled during the inspection. - Two 300-gallon containers of oily water were not labeled with the required information. They were properly labeled during the inspection. - All other containers of hazardous waste are labeled with the required All hazardous [Truncated]

Eval Notes: INSPECTOR COMMENTS On site to conduct an Aboveground Petroleum Storage Act (APSA) inspection. Ron Awrey of Aluminum Precision provided a tour of the facility to inspect the petroleum storage areas. No evidence of any leaks were observed. The tank located in a vault is a 5,000 gallon tank being managed under APSA as a Tank in an Underground Area. The Spill Prevention, Control and Countermeasure (SPCC) plan was reviewed. The following was observed as part of the SPCC plan: - Daily inspection logs - The plan was renewed in 2019 - The Certification of the Applicability of Substantial Harm Criteria is located in Appendix D - Training - Currently the facility operated 24 hours a day for six days. Security is accomplished with fencing, control access and security patrol when not operating - Level sensing is accomplished be means of a visual level tube. No APSA violations were observed this date.

CERS Description: Chemical Storage Facilities

Violations:

Site ID: 416401
Site Name: BRIGHTVIEW LANDSCAPE SERVICES
Violation Date: 10-23-2018
Citation: 22 CCR 15 66265.173 - California Code of Regulations, Title 22, Chapter 15, Section(s) 66265.173
Violation Description: Failure to meet the following container management requirements: (a) A container holding hazardous waste must always be closed during storage, except when it is necessary to add or remove waste. (b) A container holding hazardous waste must not be opened, handled, or stored in a manner which may rupture the container or cause it to leak.
Violation Notes: Returned to compliance on 10/23/2018. Some Used Oil drums were open while not being used. Violation corrected on site.

Eval Notes: Orange County Environmental Health as the Certified Unified Program Agency (OC CUPA) is the administrating agency for the Hazardous Materials Disclosure and Business Emergency Plan programs (HMD/BEP) previously administered by the Orange County Fire Authority. During the months of August and December of 2013, the OC CUPA sent out letters to regulated businesses requesting them to electronically submit their HMD/BEP forms. Electronic submission of these forms is a legal requirement. Failure to submit HMD/BEP forms is in violation of the California Health & Safety Code Chapter 6.95. According to our records there is no electronic submission for this facility. Please go to www.esubmit.ocgov.com to request a username and password and submit your HMD/BEP forms within the next 30 days. Businesses may also submit forms via the California Environmental Reporting System. Please verify that all owner information that is prepopulated on the E-Submit Portal is still [Truncated]

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

The FINDS: database may contain additional details for this site. Please contact your EDR Account Executive for more information

Citation: HSC 6.95 25508(a)(3) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(3)
Violation Description: Failure to complete and electronically submit hazardous material inventory information for all reportable hazardous materials on site at or above reportable quantities.
Violation Notes: Returned to compliance on 02/13/2023. Sodium hypochlorite pentahydrate is not the chemical on site - sodium hypochlorite 12.5% is the proper chemical. Update the inventory disclosure to reflect the storage of sodium hypochlorite 12.5%. The CAS # will also need to be updated. Submit corrections to CERS within 60 days.
Violation Division: Orange County Environmental Health
Violation Program: HMRRP
Violation Source: CERS,

Site ID: 408647
Site Name: Dyer Road Wellfield Initial Disinfection Facility
Violation Date: 06-17-2014
Citation: 19 CCR 4.5 2760.3(c) - California Code of Regulations, Title 19, Chapter 4.5, Section(s) 2760.3(c)
Violation Description: Failure to review operating procedures as often as necessary to assure that they reflect current operating practice, including changes that

DYER ROAD WELLFIELD INITIAL DISINFECTION FACILITY (Continued) **S112960416**

	result from changes in process chemicals, technology, and equipment, and changes to stationary sources.
Violation Notes:	Procedure IDF-CL2-11, IDF-CL2-12 and IDF-CL2-13, states Chlorine sensors are tested every month. There is a discrepancy with discussions and testing records from maintenance personnel. Records indicate sensors are calibrated every 30-days and tested every 90-days. Sensors are quarterly tested through SCADA. Facility must update the procedure to reflect the testing and calibration frequencies of the maintenance activities.

Eval Notes: Received a follow up email from Bob Meripol of IRWD regarding their compliance status for violations issued in August- October: From: Robert Meripol (Consultant) <meripol@irwd.com> Sent: Monday, January 24, 2022 10:27 AM To: Wales, Lisa <LWales@ochca.com> Cc: Steve Choi <choi@irwd.com>; Richard Mykitta <mykitta@irwd.com> Subject: RE: CERS Updates Attention: This email originated from outside the County of Orange. Use caution when opening attachments or links. Hello Lisa, We are working with a 3rd party consultant to get the corrections made in CERS. Right now they are conducting 5-10 site visits per week and making corrections as they go. I will begin submitting the sites they have corrected this week. Please use me as your point of contact with the district moving forward. I am happy to answer any questions you might have. I appreciate your patience as we get back up to speed. Thank you, Bob Meripol SAFETY CONSULTANT 3512 Michelson Drive, [Truncated]

Environmental Interest/Information System:
All generators and treatment, storage, and disposal (TSD) facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years. The data collected is used to create the National Biennial Resource Conservation and Recovery Act (RCRA) Hazardous Waste Report. This data is processed within the RCRA Information (RCRAInfo) database
The Risk Management Plan (RMP) database stores the risk management plans reported by companies that handle, manufacture, use, or store certain flammable or toxic substances, as required under section 112(r) of the Clean Air Act (CAA).
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

The FINDS: database may contain additional details for this site. Please contact your EDR Account Executive for more information

Environmental Interest/Information System:
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

The FINDS: database may contain additional details for this site. Please contact your EDR Account Executive for more information

Environmental Interest/Information System:
All generators and treatment, storage, and disposal (TSD) facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years. The data collected is used to create the National Biennial Resource Conservation and Recovery Act (RCRA) Hazardous Waste Report. This data is processed

BEAUTY CO USA INC. (Continued) **1001967496**

within the RCRA Information (RCRAInfo) database
The Integrated Compliance Information System (ICIS) provides a database that, when complete, will contain integrated enforcement and compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions and a subset of the Permit Compliance System (PCS), which supports the National Pollutant Discharge Elimination System (NPDES). This information is maintained in ICIS by EPA in the Regional offices and it at Headquarters. A future release of ICIS will completely replace PCS and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities that support compliance and enforcement programs, including incident tracking, compliance assistance, and compliance monitoring.
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.
The National Pollutant Discharge Elimination System (NPDES) module of the Integrated Compliance Information System (ICIS). Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.
California's Hazardous Waste Tracking System Data Mart (HWTS-DATAMART) provides information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

Description:	Caller states a fire to a chemical warehouse due to unknown causes has resulted in the release of an unknown amount of methacrylate and solvents. The chemicals is being released both as a liquid mixed with fire suppression foam and also as a vapor cloud. There are approximately 100 mandatory evacuations from a one block radius surrounding the incident. Orange County Fire Authority is on scene attempting to put out the fire. Unknown on clean up efforts until fire is out.

Environmental Interest/Information System:
The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS),EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), andToxic Release Inventory (TRI).

The FINDS: database may contain additional details for this site. Please contact your EDR Account Executive for more information

Click Here for FRS Facility Detail Report:

Environmental Interest/Information System:
The Department of Labor, Occupational Safety and Health Administration information system consists of inspection case detail for approximately 100,000 OSHA inspections conducted annually. The FRS dataset includes facilities that had inspections within the last 7 years within the mining, oil and gas, utilities, and manufacturing sectors.

The FINDS: database may contain additional details for this site. Please contact your EDR Account Executive for more information

VALLEYCREST LANDSCAPE INC (Continued) **S113011862**

Violation Description: Failure to annually review and electronically certify that the business plan is complete and accurate on or before the annual due date.
Violation Notes: The Hazardous Materials Business Plan (HMBP) was not reviewed and electronically certified by the annual due date, March 1st 2024, that it is complete, accurate, and in compliance with EPCRA.
Violation Division: Orange County Environmental Health
Violation Program: HMRRP
Violation Source: CERS,

Evaluation:
Eval General Type: Other/Unknown
Eval Date: 09-17-2016
Violations Found: No
Eval Type: Other, not routine, done by local agency
Eval Notes: Reviewed HMBEP submittal. Facility states that they have removed the hydroseed glue and that it is no longer stored on site. Subittal was declined and an email sent to the facility contact. The following corrections are needed: CHEMICAL INVENTORY All Materials - complete Fire Code Hazard Class PAM 12 - complete Fire code hazard classes, Federal hazard categories, storage pressure and temperature fields and provide %WT information for all ingredients listed on the Mixture Components Chart Propane change physical state to Liquid Motor Oil - complete CAS# for base oils (64742-65-0) and identify additive package or remove from chart Used Motor Oil - change Hazardous Material Type to Waste//- complete CAS# for base oils (64742-65-0) and identify additive package or remove from chart

Eval General Type: Compliance Evaluation Inspection
Eval Date: 10-23-2018
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: INSPECTOR COMMENTS On site for routine hazardous materials and business emergency plan inspection. Consent to enter and inspect was given by Alvaro Escatel, PM Manager. Name has change to BrightView Landscape Development. No Ownership Change has occurred. Observed the facility and inspected hazardous materials storage. CERS inventory matched what is on site. Please update Contingency Plan in CERS. The facility is responsible for identifying all hazardous materials, to include hazardous wastes, which are above disclosure thresholds (200cuft compressed gas, 55 gal liquid, 500 lbs solid). If there is a change in the type or amount of chemicals that are maintained on site, please electronically submit revised documents within 30 days of the change.

Eval General Type: Compliance Evaluation Inspection
Eval Date: 11-08-2021
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: INSPECTOR COMMENTS The facility inspection was conducted with Pat Seatter, Operations Manager. Walked the interior and exterior of the

VALLEYCREST LANDSCAPE INC (Continued) **S113011862**

facility to inspect the hazardous waste storage area and dumpster. Observed hazardous waste management practices and documentation including training records, manifests and contingency plan. The hazardous waste label on the Used Oil container was missing information due to smudging. Violation abated on site.

Eval Date: 05-02-2024
Violations Found: Yes
Eval Type: Other, not routine, done by local agency
Eval Notes: According to the CERS database, your business remains out of compliance with the annual certification requirement and a violation is being cited. Businesses are required to annually review and certify that their information in the California Electronic Reporting System (CERS) is complete, accurate and in compliance by March 1st. Your business was notified via email on March 27, 2024 that your facility was out of compliance with this requirement. Please note the following important details: 1) Complete submittal includes the HazMat Inventory AND the Emergency Plan / Training sections. Both sections must be submitted. 2) If your business qualifies (see below) you may submit 2024 via the Certify option available on CERS. You must be logged in to use. HMBP Certify: A business may use the Certify option button located on their forms page if: 1) A previous, complete submittal was made the prior year, and 2) The business is not subject to the Federal EPCRA reporting requirements, and 3) Th

Environmental Interest/Information System:
The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS),EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), andToxic Release Inventory (TRI).

The FINDS: database may contain additional details for this site. Please contact your EDR Account Executive for more information

Environmental Interest/Information System:
THE EMISSION INVENTORY SYSTEM (EIS) MAINTAINS AN INVENTORY OF LARGE

EXPRESS MANUFACTURING INC (Continued) **1000708799**

STATIONARY SOURCES AND VOLUNTARILY-REPORTED SMALLER SOURCES OF AIR POINT POLLUTANT EMITTERS. IT CONTAINS INFORMATION ABOUT FACILITY SITES AND THEIR PHYSICAL LOCATION, EMISSIONS UNITS, EMISSIONS PROCESSES, RELEASE POINTS, CONTROL APPROACHES, AND REGULATIONS. FACILITY INVENTORY DATA ARE KEPT SEPARATE FROM THE EMISSIONS DATA AND HAVE STABLE IDENTIFIERS TO IMPROVE CONTINUITY FROM YEAR TO YEAR AND TO HELP IDENTIFY DUPLICATE OR MISSING FACILITIES
The Toxic Release Inventory System (TRIS) is a publicly available EPA database reported annually by certain covered industry groups, as well as federal facilities. It contains information about more than 650 toxic chemicals that are being used, manufactured, treated, transported, or released into the environment, and includes information about waste management and pollution prevention activities.
The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS),EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), andToxic Release Inventory (TRI).
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.
The National Pollutant Discharge Elimination System (NPDES) module of the Integrated Compliance Information System (ICIS). Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.
California's Hazardous Waste Tracking System Data Mart (HWTS-DATAMART) provides information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

Registry ID: 110002661165

Eval Notes: According to the CERS database, your business remains out of compliance with the annual certification requirement and a violation is being cited. Businesses are required to annually review and certify that their information in the California Electronic Reporting System (CERS) is complete, accurate and in compliance by March 1st. Your business was notified via email on 4/28/23 that your facility was out of compliance with this requirement. Please visit https://cers.calepa.ca.gov/ to access CERS and submit your completed HMBP forms. Failure to submit HMBEP forms is a violation of the California Health & Safety Code and California Code of Regulations. Progressive enforcement will be taken by this Agency if a submittal/certification has not been completed within 30 days of this report. If you have any questions regarding this violation, please contact your inspector, Brandon Aprahamian at (714) 290-5849 or baprahamian@ochca.com.

Eval Notes: Orange County Environmental Health as the Certified Unified Program Agency (OC CUPA) is the administrating agency for the Hazardous Materials Disclosure and Business Emergency Plan programs (HMD/BEP) previously administered by the Orange County Fire Authority. During the months of August and December of 2013, the OC CUPA sent out letters to regulated businesses requesting them to electronically submit their HMD/BEP forms. Electronic submission of these forms is a legal requirement. Failure to submit HMD/BEP forms is in violation of the California Health & Safety Code Chapter 6.95. According to our records there is no electronic submission for this facility. Please go to www.esubmit.ocgov.com to request a username and password and submit your HMD/BEP forms within the next 30 days. Businesses may also submit forms via the California Environmental Reporting System. Please verify that all owner information that is prepopulated on the E-Submit Portal is still [Truncated]

Eval Notes: Orange County Environmental Health as the Certified Unified Program Agency (OC CUPA) is the administrating agency for the Hazardous Materials Disclosure and Business Emergency Plan programs (HMD/BEP) previously administered by the Orange County Fire Authority. During the months of August and December of 2013, the OC CUPA sent out letters to regulated businesses requesting them to electronically submit their HMD/BEP forms. Electronic submission of these forms is a legal requirement. Failure to submit HMD/BEP forms is in violation of the California Health & Safety Code Chapter 6.95. According to our records there is no electronic submission for this facility. Please go to www.esubmit.ocgov.com to request a username and password and submit your HMD/BEP forms within the next 30 days. Businesses may also submit forms via the California Environmental Reporting System. Please verify that all owner information that is prepopulated on the E-Submit Portal is still [Truncated]

Name:	DESCHNER CORPORATION
Address:	3211 W HARVARD ST
City,State,Zip:	SANTA ANA, CA 92704
Site ID:	414255
CERS ID:	10541575
CERS Description:	Chemical Storage Facilities

Violations:

Site ID:	414255
Site Name:	DESCHNER CORPORATION
Violation Date:	02-11-2015
Citation:	22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Description:	Failure to properly label hazardous waste accumulation containers with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.
Violation Notes:	Returned to compliance on 02/19/2015. Containers of oily water and oily absorbent were not labeled with the hazardous property. Multiple containers of oily rags in the shop were not labeled as hazardous waste with the required information. The containers were properly labeled during the inspection. No further corrective action is required.
Violation Division:	Orange County Environmental Health
Violation Program:	HW
Violation Source:	CERS,

Site ID:	414255
Site Name:	DESCHNER CORPORATION
Violation Date:	02-11-2015
Citation:	22 CCR 12 66262.34(d) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(d)
Violation Description:	Failure to dispose of hazardous waste within 180 days (or 270 if waste is transported over 200 miles) for the generator who generates less than 1000 kilogram per month, but more than 100 kilograms per month.
Violation Notes:	Returned to compliance on 02/19/2015. The following containers of hazardous waste were allowed to accumulation beyond the maximum allowable accumulation time: - Waste oil (12/18/13) - Oily water (12/18/13) - Spent oil filters (12/18/13), 1 year maximum accumulation time Please have these containers of hazardous waste hauled immediately by a registered hazardous waste hauler. Submit a copy of the manifest to this Agency within 30 days.

Eval Notes: 2016 hazmat submittal declined in portal due to: Chemical Disclosure: - Hydraulic Oil (Waste): a separate disclosure is required for hazardous waste (55 gallons or more). Fire code hazard class is combustible III-B, fed hazard category is fire and chronic health. The hazardous component for this type of chemical is often petroleum hydrocarbons (CAS 64742-52-5). Annual waste amount can be calculated from previous 12 months manifests. Please add the state waste code (223). - During the 2015 inspection, oily water (compressor waste) was also identified as requiring disclosure.

Address:	3211 WEST HARVARD STREET
City,State,Zip:	SANTA ANA, CA 92704
Site ID:	530487
CERS ID:	839892
CERS Description:	Industrial Facility Storm Water

Evaluation:

Eval General Type:	Compliance Evaluation Inspection
Eval Date:	05-18-2016
Violations Found:	No
Eval Type:	Industrial Storm Water Compliance Evaluation
Eval Notes:	Regional Board staff conducted a no exposure inspection of the above facility on May 18, 2016. The facility gained NEC coverage on 9/22/15. Based on staff's observations, the facility meets the NEC criteria and thus is in compliance at the time of the inspection.

Environmental Interest/Information System:
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.
The National Pollutant Discharge Elimination System (NPDES) module of the Integrated Compliance Information System (ICIS). Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and

DESCHNER CORPORATION (Continued) **1023698157**

reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

The FINDS: database may contain additional details for this site. Please contact your EDR Account Executive for more information

Environmental Interest/Information System:
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

The FINDS: database may contain additional details for this site. Please contact your EDR Account Executive for more information

Environmental Interest/Information System:
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

The FINDS: database may contain additional details for this site. Please contact your EDR Account Executive for more information

Eval General Type: Compliance Evaluation Inspection
Eval Date: 12-20-2016
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: INSPECTOR COMMENTS On site for routine hazardous materials and business emergency plan inspection. Consent to enter and inspect was given by Mark Tyssee, CEO. Observed the facility and inspected hazardous materials storage. The following materials were observed in amounts that meet or exceed the minimum volumes required for disclosure: - Argon - Butane - Helium - Hydrogen - IsoButane - Methane - Nitrogen - Oxygen - Propane - UN1954 Compressed Gas - UN1956 Compressed Gas Business emergency plan is on site and available for review. Employee training records are current and available for review. Explained to Mr. Tyssee that all Hazardous Materials and Business Emergency Plan reporting will no longer be conducted through E-Submit but will now be done through the state portal, CERS. The facility is responsible for identifying all hazardous materials, to include hazardous wastes, which are above disclosure thresholds (200cuft compressed gas, 55 gal [Truncated]
Eval Division: Orange County Environmental Health

Eval General Type: Other/Unknown
Eval Date: 04-25-2015
Violations Found: No
Eval Type: Other, not routine, done by local agency
Eval Notes: Reviewed HMBEP submittal on Esubmit. Package was DECLINED and an email sent to the facility contact. The following corrections are needed: CHEMICAL INVENTORY You have multiple entries for the Hydrogen gas, UN 1954 Compressed Gas and the UN 1956 Compressed Gas. Although they are stored in different locations, you would only disclose each chemical once and record the cumulative volume under the Maximum Daily Amount. Locations of these materials can be listed together under Chemical Location and on the site map. Please combine these disclosures and submit only one disclosure for each chemical. For all chemicals listed please complete the Days on Site field (i.e. 365) UN 1956 Compressed Gas, Argon, and Nitrogen list all Federal Hazard Categories that apply SITE MAP Please add the following to your map: storm drains and sewers, and the evacuation staging area(s)

Environmental Interest/Information System:
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

The FINDS: database may contain additional details for this site. Please contact your EDR Account Executive for more information

Eval General Type: Other/Unknown
Eval Date: 10-16-2014
Violations Found: Yes
Eval Type: Other, not routine, done by local agency
Eval Notes: Orange County Environmental Health as the Certified Unified Program Agency (OC CUPA) is the administrating agency for the Hazardous Materials Disclosure and Business Emergency Plan programs (HMD/BEP) previously administered by the Orange County Fire Authority. During the months of August and December of 2013, the OC CUPA sent out letters to regulated businesses requesting them to electronically submit their HMD/BEP forms. Electronic submission of these forms is a legal requirement. Failure to submit HMD/BEP forms is in violation of the California Health & Safety Code Chapter 6.95. According to our records there is no electronic submission for this facility. Please go to www.esubmit.ocgov.com to request a username and password and submit your HMD/BEP forms within the next 30 days. Businesses may also submit forms via the California Environmental Reporting System. Please verify that all owner information that is prepopulated on the E-Submit Portal is still [Truncated]

Eval Notes: Violation I208 is still open and outstanding. The facility has not submitted a hazardous material Business Plan (HMBP). Please complete and submit an HMBP for this facility immediately. Any business that does not comply with the HMD/BEP requirements is civilly liable to the administrating county or city in an amount not more than two thousand dollars ($2,000.00) for each day in violation. If the business continues to be in violation after reasonable notice of violating the HMD/BEP requirements, the business is civilly liable to the administrating county or city in an amount not to exceed five thousand dollars ($5,000.00) for each day in which the violation occurs (H&SC 25514(a), (b)). Please contact Brandon Aprahamian at BAprahamian@ochca.com with regards to any questions. The facility has not submitted a hazardous material business plan to this agency for 2018 by the March 1st 2018 deadline. Please review and electronically certify that the Hazardous Materials [Truncated]

Eval Notes: According to the CERS database, your business remains out of compliance with the annual certification requirement and a violation is being cited. Businesses are required to annually review and certify that their information in the California Electronic Reporting System (CERS) is complete, accurate and in compliance by March 1st. Your business was notified via email on March 27, 2024 that your facility was out of compliance with this requirement. Please note the following important details: 1) Complete submittal includes the HazMat Inventory AND the Emergency Plan / Training sections. Both sections must be submitted. 2) If your business qualifies (see below) you may submit 2024 via the Certify option available on CERS. You must be logged in to use. HMBP Certify: A business may use the Certify option button located on their forms page if: 1) A previous, complete submittal was made the prior year, and 2) The business is not subject to the Federal EPCRA reporting requirements, and 3) Th

Eval Notes: FA0065360 American Cooling Tower 3130 W Harvard St Santa Ana CA 92704 INSPECTOR COMMENTS On site for routine hazardous waste inspection. Consent to enter and inspect was given by Tom Roelofs. Observed the facility and inspected hazardous waste storage. The containers are stored closed and properly labeled. No evidence of hazardous waste spillage or runoff was observed. Hazardous waste has not yet been hauled from this location. As a conditionally exempt small quantity generator (CESQG), the facility must have all hazardous waste hauled within 180 days of accumulating 220 pounds of waste (approximately 1/2 of a 55 gallon drum). Emergency plan was updated during the inspection.

Environmental Interest/Information System:
The National Pollutant Discharge Elimination System (NPDES) module of the Integrated Compliance Information System (ICIS). Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

The FINDS: database may contain additional details for this site. Please contact your EDR Account Executive for more information

Environmental Interest/Information System:
THE EMISSION INVENTORY SYSTEM (EIS) MAINTAINS AN INVENTORY OF LARGE STATIONARY SOURCES AND VOLUNTARILY-REPORTED SMALLER SOURCES OF AIR POINT POLLUTANT EMITTERS. IT CONTAINS INFORMATION ABOUT FACILITY SITES AND THEIR PHYSICAL LOCATION, EMISSIONS UNITS, EMISSIONS PROCESSES, RELEASE POINTS, CONTROL APPROACHES, AND REGULATIONS. FACILITY INVENTORY DATA ARE KEPT SEPARATE FROM THE EMISSIONS DATA AND HAVE STABLE IDENTIFIERS TO IMPROVE CONTINUITY FROM YEAR TO YEAR AND TO HELP IDENTIFY DUPLICATE OR MISSING FACILITIES
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Site History:	In a work plan submitted to the RWQCB September 5, 2001, Fairchild agreed to pump and treat TCE impacted groundwater for six months. The groundwater treatment service was put in service on January 8, 2002 and had pumped at low volume (200 gallons per day) until August 2008. A work plan for injection of sodium permanganate in the area of former waste metal filling storage area was submitted in August 2008. Baord staff had agreed that the groundwater treatment activities in well MW-1A can be terminated in lieu of chemical injection. Chemical injection work plan was not implemented as a result of Fairchild Holding Corp filling for bankruptcy soon after. 3/12/12-site is under new ownership, see contacts. Groundwater is being remediated.

Environmental Interest/Information System:
All generators and treatment, storage, and disposal (TSD) facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years. The data collected is used to create the National Biennial Resource Conservation and Recovery Act (RCRA) Hazardous Waste Report. This data is processed within the RCRA Information (RCRAInfo) database
The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS),EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), andToxic Release Inventory (TRI).

Environmental Interest/Information System:
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

The FINDS: database may contain additional details for this site. Please contact your EDR Account Executive for more information

Environmental Interest/Information System:
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

The FINDS: database may contain additional details for this site. Please contact your EDR Account Executive for more information

Eval Date: 12-19-2016
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: INSPECTOR COMMENTS On site for routine hazardous materials and business emergency plan inspection. Consent to enter and inspect was given by John Hormuth, Vice President. Observed the facility and inspected hazardous materials storage. The following materials were observed in amounts that meet or exceed the minimum volumes required for disclosure: - Lacquer - Propane Propane is missing from Chemical inventory and needs to be added. Business emergency plan is on site and available for review. Employee training records are current and available for review. Explained to Mr. Hormuth that all Hazardous Materials and Business Emergency Plan reporting will no longer be conducted through E-Submit, but will now be done through the state portal CERS. The facility is responsible for identifying all hazardous materials, to include hazardous wastes, which are above disclosure thresholds (200cuft compressed gas, 55 gal liquid, 500 lbs solid). If there is a change [Truncated]

Eval Program: HMRRP
Eval Source: CERS,

Eval General Type: Compliance Evaluation Inspection
Eval Date: 01-29-2020
Violations Found: No
Eval Type: Industrial Storm Water Compliance Evaluation
Eval Notes: Regional Board staff conducted a compliance inspection of the above facility on January 29, 2020. Staff met with John Hormuth, LRP. The SWPPP and employee training records were reviewed. The SWPPP was up-to-date and employee training was last conducted February 2019. The facility is currently in Level 1 for pH and Zinc. The Level 1 ERA Report for pH was due January 1, 2020 and has not been received yet. The December 2019 Sampling Frequency Reduction report was reviewed, which includes the pH results over the NAL limit. Since pH results from the 2018-2019 reporting year were out of the pH limit range the facility no longer qualifies for the sampling frequency reduction. Mr. Hormuth was unaware of these findings. A site walk was then conducted

STRATA FOREST PRODUCTS INC (Continued) **S109693909**

regarding the facility s complaint. BMPs are implemented along the fence line between the railroad and property line. Signs of sediment laden run-on were observed along the property. Industrial materials were observed under permanent storm-resistant shelters along the property. Roll-off bins with scrap wood disposal were observed near the dust collector. Signs of sediment was observed around the facility where the sediment laden run-on occurred.

Eval Notes: Orange County Environmental Health as the Certified Unified Program Agency (OC CUPA) is the administrating agency for the Hazardous Materials Disclosure and Business Emergency Plan programs (HMD/BEP) previously administered by the Orange County Fire Authority. During

STRATA FOREST PRODUCTS INC (Continued) **S109693909**

the months of August and December of 2013, the OC CUPA sent out letters to regulated businesses requesting them to electronically submit their HMD/BEP forms. Electronic submission of these forms is a legal requirement. Failure to submit HMD/BEP forms is in violation of the California Health & Safety Code Chapter 6.95. According to our records there is no electronic submission for this facility. Please go to www.esubmit.ocgov.com to request a username and password and submit your HMD/BEP forms within the next 30 days. Businesses may also submit forms via the California Environmental Reporting System. Please verify that all owner information that is prepopulated on the E-Submit Portal is still [Truncated]

Eval General Type: Compliance Evaluation Inspection
Eval Date: 09-27-2011
Violations Found: No
Eval Type: Industrial Storm Water Compliance Evaluation
Eval Notes: Weather: sunny and warm. SWPPP indicates vehicle washing occurs on-site; Contact reports this is done by a contractor on week-ends; is unsure how wastewater is disposed of. Advised that discharge would be an unauthorized non-storm water discharge. Majority of site is for storing various wood, mostly under cover. Uncovered wood is rapidly rotated. Milling occurs inside with sawdust collection system on roof and on side of building. Contact reports that roof is swept by landlord and system and surrounding area is swept nearly constantly by an employee; did not observe anyone sweeping. Milling generates about two large roll-offs of sawdust per day; two full roll-offs observed staged for pickup. Heavy sawdust on ground around and on collection system but otherwise well-controlled elsewhere. Monitoring results show benchmark excursions for pH, TSS, and BOD; discussed how this information should be used with visual observations to improve their BMPs.

Eval General Type: Compliance Evaluation Inspection
Eval Date: 12-19-2016
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: INSPECTOR COMMENTS On site for routine hazardous materials and business emergency plan inspection. Consent to enter and inspect was given by John Hormuth, Vice President. Observed the facility and inspected hazardous materials storage. The following materials were observed in amounts that meet or exceed the minimum volumes required for disclosure: - Lacquer - Propane Propane is missing from Chemical inventory and needs to be added. Business emergency plan is on site and available for review. Employee training records are current and available for review. Explained to Mr. Hormuth that all Hazardous Materials and Business Emergency Plan reporting will no longer be conducted through E-Submit, but will now be done through the state portal CERS. The facility is responsible for identifying all hazardous materials, to include hazardous wastes, which are above disclosure thresholds (200cuft compressed gas, 55 gal liquid, 500 lbs solid). If there is a change [Truncated]

Eval General Type: Compliance Evaluation Inspection
Eval Date: 01-29-2020
Violations Found: No
Eval Type: Industrial Storm Water Compliance Evaluation
Eval Notes: Regional Board staff conducted a compliance inspection of the above facility on January 29, 2020. Staff met with John Hormuth, LRP. The SWPPP and employee training records were reviewed. The SWPPP was up-to-date and employee training was last conducted February 2019. The

STRATA FOREST PRODUCTS INC (Continued) **S109693909**

facility is currently in Level 1 for pH and Zinc. The Level 1 ERA Report for pH was due January 1, 2020 and has not been received yet. The December 2019 Sampling Frequency Reduction report was reviewed, which includes the pH results over the NAL limit. Since pH results from the 2018-2019 reporting year were out of the pH limit range the facility no longer qualifies for the sampling frequency reduction. Mr. Hormuth was unaware of these findings. A site walk was then conducted regarding the facility s complaint. BMPs are implemented along the fence line between the railroad and property line. Signs of sediment laden run-on were observed along the property. Industrial materials were observed under permanent storm-resistant shelters along the property. Roll-off bins with scrap wood disposal were observed near the dust collector. Signs of sediment was observed around the facility where the sediment laden run-on occurred.

Violations Found: Yes
Eval Type: Other, not routine, done by local agency
Eval Notes: Orange County Environmental Health as the Certified Unified Program Agency (OC CUPA) is the administrating agency for the Hazardous Materials Disclosure and Business Emergency Plan programs (HMD/BEP) previously administered by the Orange County Fire Authority. During the months of August and December of 2013, the OC CUPA sent out letters to regulated businesses requesting them to electronically submit their HMD/BEP forms. Electronic submission of these forms is a legal requirement. Failure to submit HMD/BEP forms is in violation of the California Health & Safety Code Chapter 6.95. According to our records there is no electronic submission for this facility. Please go to www.esubmit.ocgov.com to request a username and password and submit your HMD/BEP forms within the next 30 days. Businesses may also submit forms via the California Environmental Reporting System. Please verify that all owner information that is prepopulated on the E-Submit Portal is still [Truncated]

Eval Program: HMRRP
Eval Source: CERS,

Eval General Type: Compliance Evaluation Inspection
Eval Date: 09-27-2011
Violations Found: No
Eval Type: Industrial Storm Water Compliance Evaluation
Eval Notes: Weather: sunny and warm. SWPPP indicates vehicle washing occurs on-site; Contact reports this is done by a contractor on week-ends; is unsure how wastewater is disposed of. Advised that discharge would be an unauthorized non-storm water discharge. Majority of site is for storing various wood, mostly under cover. Uncovered wood is rapidly rotated. Milling occurs inside with sawdust collection system on roof and on side of building. Contact reports that roof is swept by landlord and system and surrounding area is swept nearly constantly by an employee; did not observe anyone sweeping. Milling generates about two large roll-offs of sawdust per day; two full roll-offs observed staged for pickup. Heavy sawdust on ground around and on collection system but otherwise well-controlled elsewhere. Monitoring results show benchmark excursions for pH, TSS, and BOD; discussed how this information should be used with visual observations to improve their BMPs.

Environmental Interest/Information System:
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.
The Department of Labor, Occupational Safety and Health Administration information system consists of inspection case detail for approximately 100,000 OSHA inspections conducted annually. The FRS dataset includes facilities that had inspections within the last 7 years within the mining, oil and gas, utilities, and manufacturing sectors.
The National Pollutant Discharge Elimination System (NPDES) module of the Integrated Compliance Information System (ICIS). Under NPDES, all facilities that discharge pollutants from any point source into waters

STRATA FOREST PRODUCTS INC (Continued) **1023693804**

of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

The FINDS: database may contain additional details for this site. Please contact your EDR Account Executive for more information

Evaluation:
Eval General Type: Compliance Evaluation Inspection
Eval Date: 01-16-2024
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: INSPECTOR COMMENTS The facility inspection was conducted with Brad Bollman, Owner. Walked the interior and exterior of the facility to inspect the hazardous waste storage area and dumpster. Observed hazardous waste management practices and documentation including training records, manifests and contingency plan. No violation observed on this date.
Eval Division: Orange County Environmental Health
Eval Program: HW
Eval Source: CERS,

Eval General Type: Compliance Evaluation Inspection
Eval Date: 02-22-2018
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: INSPECTOR COMMENTS On site for routine recycler inspection. The inspection was conducted with Brad Bollman. The facility recycles spent acetone oil on site. An outside contractor comes to the site and reclaims the acetone. The reclaimed acetone is then used as a substitute for new product. The acetone sludge is hauled by the

NEWPORT LAMINATES INC (Continued) **1005452116**

contractor, who is a registered hazardous waste hauler, at the time of reclamation. There have been no changes to the recycling process.

Eval Notes: INSPECTOR COMMENTS On site for routine hazardous materials and business emergency plan inspection. The inspection was conducted with Brad Bollman. Observed the facility and inspected hazardous materials storage. The following materials were observed in amounts that meet or exceed the minimum volumes required for disclosure: - casting resin - ceramic grog - acetone (new) - acetone (waste) - gelcoat - resin with talcum - resin DCPD - resin, polyester-filled system - MEK-peroxide -

NEWPORT LAMINATES INC (Continued) **1005452116**

fiberglass - propane - oxygen The facility has submitted hazardous materials and HMBEP documents via the eSubmit Portal. These documents have been declined. Please review the comments in the Portal and submit revised documents within 30 days. Emergency plan is available on site. Please be sure to conduct employee training according to the training specifications in the plan.

Eval Notes: Orange County Environmental Health as the Certified Unified Program Agency (OC CUPA) is the administrating agency for the Hazardous Materials Disclosure and Business Emergency Plan programs (HMD/BEP) previously administered by the Orange County Fire Authority. During the months of August and December of 2013, the OC CUPA sent out letters to regulated businesses requesting them to electronically submit their HMD/BEP forms. Electronic submission of these forms is a legal requirement. Failure to submit HMD/BEP forms is in violation of the California Health & Safety Code Chapter 6.95. According to our records there is no electronic submission for this facility. Please go to www.esubmit.ocgov.com to request a username and password and submit your HMD/BEP forms within the next 30 days. Businesses may also submit forms via the California Environmental Reporting System. Please verify that all owner information that is prepopulated on the E-Submit Portal is still [Truncated]

Click Here for FRS Facility Detail Report:

Environmental Interest/Information System:
The National Compliance Database (NCDB) supports implementation of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Toxic Substances Control Act (TSCA).
THE EMISSION INVENTORY SYSTEM (EIS) MAINTAINS AN INVENTORY OF LARGE STATIONARY SOURCES AND VOLUNTARILY-REPORTED SMALLER SOURCES OF AIR POINT POLLUTANT EMITTERS. IT CONTAINS INFORMATION ABOUT FACILITY SITES AND THEIR PHYSICAL LOCATION, EMISSIONS UNITS, EMISSIONS PROCESSES, RELEASE POINTS, CONTROL APPROACHES, AND REGULATIONS. FACILITY INVENTORY DATA ARE KEPT SEPARATE FROM THE EMISSIONS DATA AND HAVE STABLE IDENTIFIERS TO IMPROVE CONTINUITY FROM YEAR TO YEAR AND TO HELP IDENTIFY DUPLICATE OR MISSING FACILITIES
The Air Facility System (AFS) contains compliance and permit data for stationary sources of air pollution regulated by the EPA, state, and local air pollution agencies.
ICIS-Air (AIR) AIR is the modernization of the Air Facility System (AFS) into the Integrated Compliance Information System (ICIS). AIR contains enforcement, compliance, and permit data for stationary sources of air pollution regulated by the EPA, State, and Local air pollution agencies.
The Integrated Compliance Information System (ICIS) provides a database that, when complete, will contain integrated enforcement and compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions and a subset of the Permit Compliance System (PCS), which supports the National Pollutant Discharge Elimination System (NPDES). This information is maintained in ICIS by EPA in the Regional offices and it at Headquarters. A future release of ICIS will completely replace PCS and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities that support compliance and enforcement

NEWPORT LAMINATES (Continued) **1004443454**

programs, including incident tracking, compliance assistance, and compliance monitoring.
The Toxic Release Inventory System (TRIS) is a publicly available EPA database reported annually by certain covered industry groups, as well as federal facilities. It contains information about more than 650 toxic chemicals that are being used, manufactured, treated, transported, or released into the environment, and includes information about waste management and pollution prevention activities.
The National Pollutant Discharge Elimination System (NPDES) module of the Integrated Compliance Information System (ICIS). Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.
The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS),EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), andToxic Release Inventory (TRI).
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

The FINDS: database may contain additional details for this site. Please contact your EDR Account Executive for more information

CERS Description:	Chemical Storage Facilities

Violations:

Site ID:	415635
Site Name:	Jack in the Box 3241
Violation Date:	05-02-2024
Citation:	HSC 6.95 25508.2 - California Health and Safety Code, Chapter 6.95, Section(s) 25508.2
Violation Description:	Failure to annually review and electronically certify that the business plan is complete and accurate on or before the annual due date.
Violation Notes:	The Hazardous Materials Business Plan (HMBP) was not reviewed and electronically certified by the annual due date, March 1st 2024, that it is complete, accurate, and in compliance with EPCRA.
Violation Division:	Orange County Environmental Health
Violation Program:	HMRRP
Violation Source:	CERS,

Evaluation:

Eval General Type:	Other/Unknown
Eval Date:	05-02-2024
Violations Found:	Yes
Eval Type:	Other, not routine, done by local agency
Eval Notes:	According to the CERS database, your business remains out of compliance with the annual certification requirement and a violation is being cited. Businesses are required to annually review and certify that their information in the California Electronic Reporting System (CERS) is complete, accurate and in compliance by March 1st. Your business was notified via email on March 27, 2024 that your facility was out of compliance with this requirement. Please note the following important details: 1) Complete submittal includes the HazMat Inventory AND the Emergency Plan / Training sections. Both sections must be submitted. 2) If your business qualifies (see below) you may submit 2024 via the Certify option available on CERS. You must be logged in to use. HMBP Certify: A business may use the Certify option button located on their forms page if: 1) A previous, complete submittal was made the prior year, and 2) The business is not subject to the Federal

Eval Notes: Orange County Environmental Health as the Certified Unified Program Agency (OC CUPA) is the administrating agency for the Hazardous Materials Disclosure and Business Emergency Plan programs (HMD/BEP) previously administered by the Orange County Fire Authority. During the months of August and December of 2013, the OC CUPA sent out letters to regulated businesses requesting them to electronically submit their HMD/BEP forms. Electronic submission of these forms is a legal requirement. Failure to submit HMD/BEP forms is in violation of the California Health & Safety Code Chapter 6.95. According to our records there is no electronic submission for this facility. Please go to www.esubmit.ocgov.com to request a username and password and submit your HMD/BEP forms within the next 30 days. Businesses may also submit forms via the California Environmental Reporting System. Please verify that all owner information that is prepopulated on the E-Submit Portal is still [Truncated]

Eval Notes: According to the CERS database, your business remains out of compliance with the annual certification requirement and a violation is being cited. Businesses are required to annually review and certify that their information in the California Electronic Reporting System (CERS) is complete, accurate and in compliance by March 1st. Your business was notified via email on March 27, 2024 that your facility was out of compliance with this requirement. Please note the following important details: 1) Complete submittal includes the HazMat Inventory AND the Emergency Plan / Training sections. Both sections must be submitted. 2) If your business qualifies (see below) you may submit 2024 via the Certify option available on CERS. You must be logged in to use. HMBP Certify: A business may use the Certify option button located on their forms page if: 1) A previous, complete submittal was made the prior year, and 2) The business is not subject to the Federal EPCRA reporting requirements, and 3) Th

Environmental Interest/Information System:
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

The FINDS: database may contain additional details for this site. Please contact your EDR Account Executive for more information

PURRFECT AUTO SERVICE #10 (Continued) **S113163213**

	Chapter 16, Section(s) 2712(b)(1)(F)
Violation Description:	"Failure to conduct secondary containment testing, or one or more of the following requirements: Perform the test of the secondary containment system upon installation, within six months of installation and every 36 months thereafter. Perform the test of a secondary containment component within 30 days of a repair or discontinuing vacuum, pressure or hydrostatic monitoring. Use a procedure that demonstrates the system works as well as at installation. Use applicable manufacturer guidelines, industry codes, engineering standard, or professional engineer approval. Performed by a certified service technician. Maintain records of secondary containment testing for 36 months."
Violation Notes:	Returned to compliance on 04/11/2022. OBSERVATION: Owner/Operator did not maintain records of secondary containment testing for 36 months. CORRECTIVE ACTION: Submit secondary containment testing records, dated 11/5/2022, via email to this Agency and maintain a copy on site for 36 months.
