

Temporary Homeless Response During COVID-19

April 20, 2020

State Mandated COVID-19 Homeless Requirements

- The COVID-19 pandemic has necessitated a rapid response from all levels of government
 - As part of the response, the State of California has ordered that all counties provide emergency shelters to isolate homeless individuals to help flatten the curve and prevent added strain on the health care system

COVID-19 and Homelessness

- Homeless individuals are highly susceptible to COVID-19 health complications and can further spread the virus without adequate shelter facilities
 - Higher mortality rates for the homeless
 - Increased risk of community transmissions
 - Overtaxing the health care system

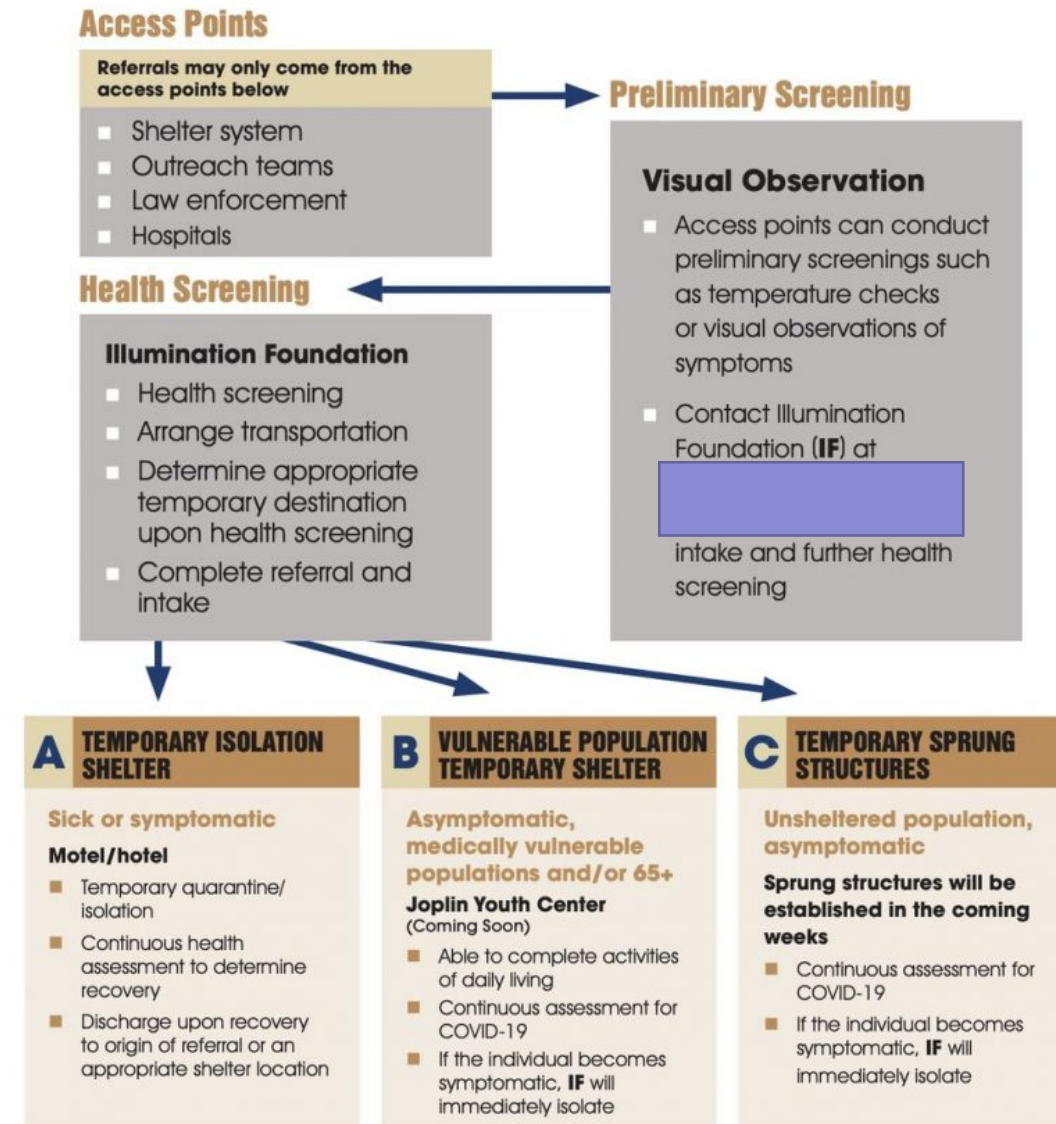

Orange County Requirements

- Based on the State order, Orange County is responsible for providing 2,300 shelter beds
 - Based on staff discussions with the County, it appears that some type of homeless response will be deployed in every city in Orange County
 - County officials have shared that they would like to identify shelter options in concert with local agencies
 - The County will be responsible for all costs and management of any shelter facility stood up during this time

The County is building a temporary homelessness response system with the three components outlined below.

Orange County Response

- To comply with the Governor's Orders, the Orange County Health Care Agency is providing temporary housing facilities, including:
 - Motel and hotel rooms
 - Temporary shelters
 - Trailers
 - Sprung structures

Orange County Efforts To Date

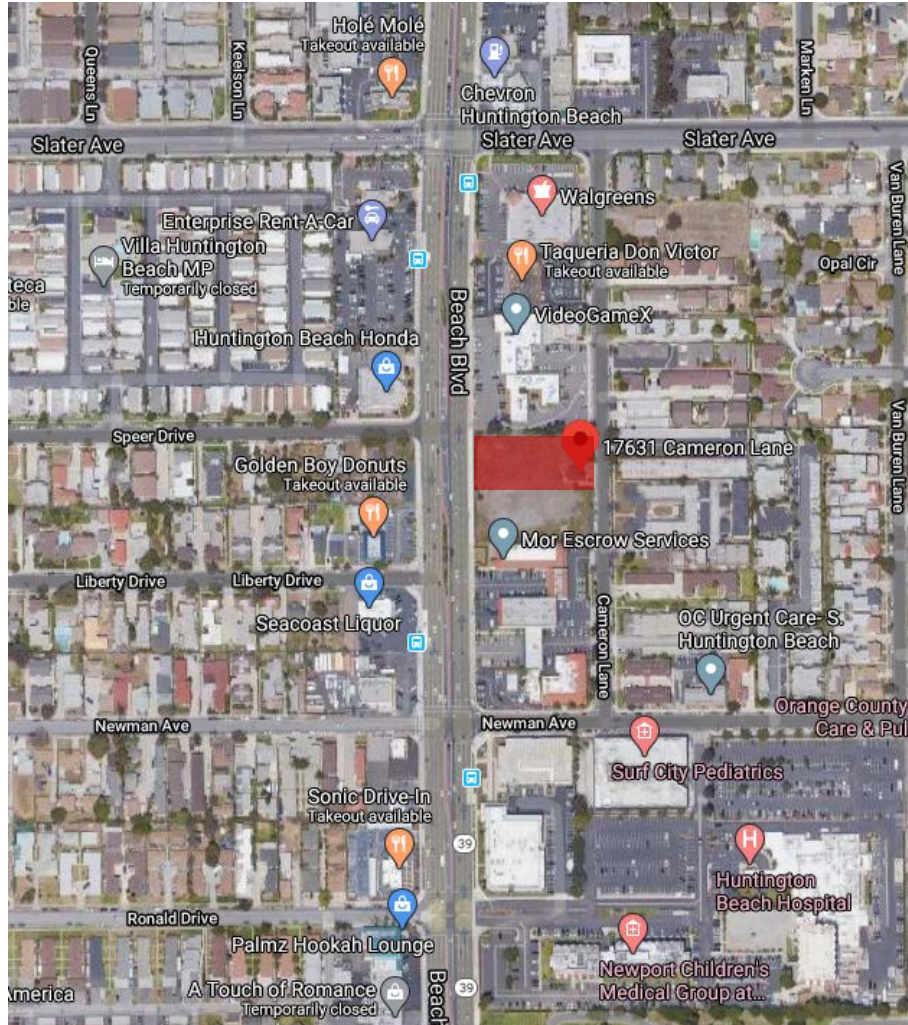

- **Costa Mesa** – 10 trailers at the Fairgrounds
- **Santa Ana** – 22 trailers; emergency shelter from Nat'l Guard Armory
- **Stanton** – Reserved 72 room hotel
- **Orange** – Reserved 127 room hotel
- **Fullerton** – Emergency shelter from Nat'l Guard Armory
- **Trabuco Canyon** – Temporary shelter at a youth center
- **Laguna Woods** – Disputed use of a hotel for medically compromised homeless
- **Laguna Hills** – Disputing similar hotel proposal
- **Other** – we are aware that the County is standing up other facilities as well

Possible HB-OC Partnership

- During the past few weeks, the City has been proactively working with the County in an attempt to find a mutually-agreeable solution
- The County has identified the property at 17631 Cameron Lane as a suitable potential location for a temporary alternative shelter site during the COVID-19 pandemic

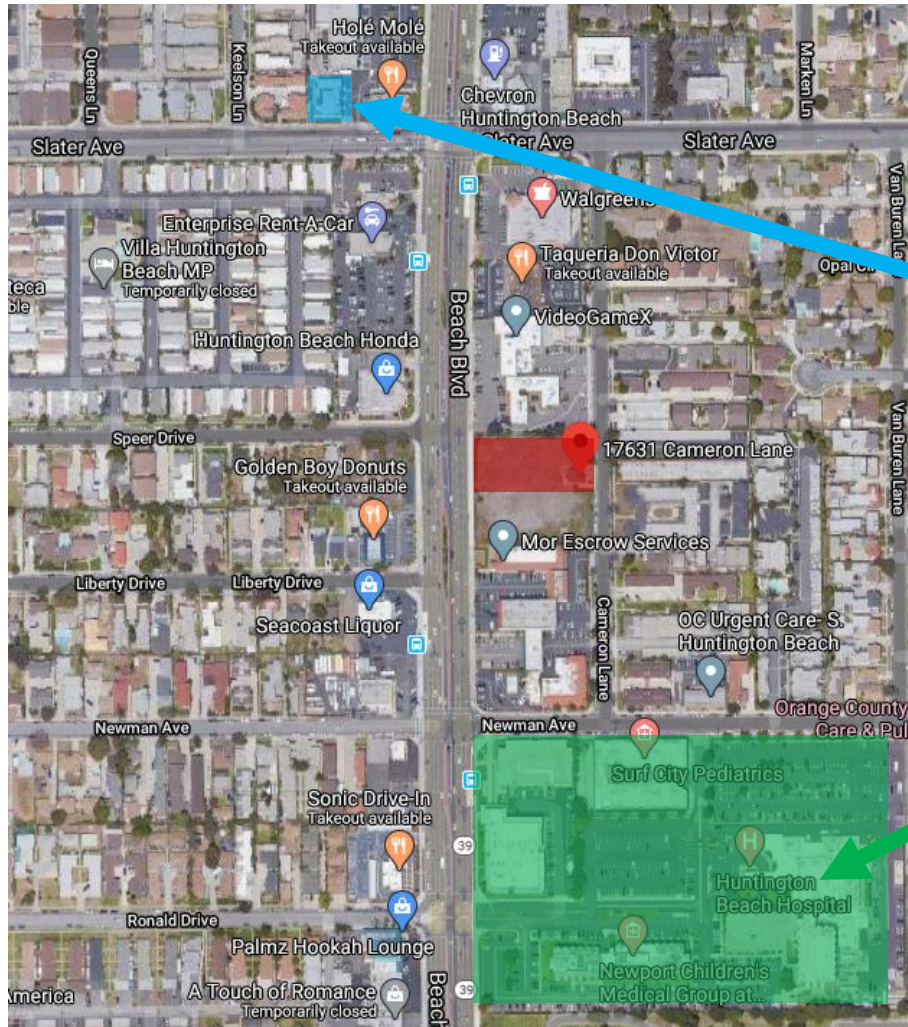

Potential Temporary Alternative Shelter Site

17631 Cameron Lane

Potential Temporary Alternative Shelter Site

17631 Cameron Lane

- Close to Oak View Police Substation
- North of Huntington Hospital

Temporary Alternative Shelter Site – SPRUNG Tent Structures

Development of Shelter Site

- OC will fund all shelter expenses during COVID-19, including:
 - All site improvements, including grading, paving, lighting, security, and fencing
 - Purchase and construction of SPRUNG tent structure
 - All operational expenses to run the temporary alternative shelter
 - The development is expected to take 6-8 weeks
 - City will not bear any capital or operating costs during the partnership period.
- While the site is being developed, to meet State requirements, the County will be coordinating the interim use of a local hotel
 - Of note, the City will be able to access the hotel for our local homeless population, and the facility will not house any COVID-19 or symptomatic patients
 - The hotel facility also is a transitional facility that is being used until the SPRUNG structure is ready

Facility to be Operated by Illumination Foundation

- Operating Plan
 - Shelter would not house individuals who are COVID-19 positive or symptomatic
 - All clients would be required to sign a User Agreement to adhere to certain rules of conduct
 - No walk-ins would be allowed, as intake must be pre-arranged with the service provider
 - Facility's security plan would be reviewed and approved by the City's Police Department

When the Shelter Order is Lifted...

- Based on the agreement we've negotiated with the County, when the State's Order is lifted, all site improvements made by the County would be transferred to City at no cost
 - The value of the site improvements is estimated at ~\$2 million
 - This deal structure would provide the City with an additional resource as we consider how to address homelessness issues locally
- Of note, if the City decided to operate the shelter, it would be for an interim period until the affordable housing project is developed
 - The funding source used to acquire the Cameron Lane site necessitates the future development of an affordable housing project on the property

Outreach Plan To Be Deployed

- If the proposed Agreement with Orange County is approved, the City and County will engage extensive outreach efforts
 - HB Homeless Solutions website
 - Regular news updates during site development
 - Mailed notices to the surrounding community
 - Updates provided through our social media and public information channels

City Council Options

1. Authorize the City Manager to execute the Emergency Facility Use Agreement with the County of Orange, in a form approved by the City Attorney, to establish a temporary alternative shelter site at 17631 Cameron Lane to respond to the COVID-19 pandemic; or
2. Do not approve the Agreement.
 - This may result in the County identifying alternate sites for homeless individuals needing shelter and isolation during the pandemic within the City of Huntington Beach without prior cooperation or agreement between the two parties
