Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

The FINDS: database may contain additional details for this site.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

The FINDS: database may contain additional details for this site.
Please contact your EDR Account Executive for more information

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

The FINDS: database may contain additional details for this site.

Comments:	Not reported
Description:	A reaction tank overflowed due to unknown reasons. The initial release was captured by the designated containment area. The maximum capacity of the containment area was reached and the excess material flowed onto the surface areas of the facility and into a storm drain. The destination of the drain was not known. The release was stopped. On-site personnel are conducting a cleanup. The cause of the incident is under investigation.

Eval Program:	HMRRP
Eval Source:	CERS,
Eval General Type:	Other/Unknown
Eval Date:	12-05-2022
Violations Found:	No
Eval Type:	Other, not routine, done by local agency
Eval Notes:	This Agency has reviewed photographs of the 55 gallon hazardous waste drums demonstrating that they have been properly labeled with all of the required information. Violation 3030007 has been corrected.
Eval Division:	Orange County Environmental Health
Eval Program:	HW
Eval Source:	CERS,
Eval General Type:	Compliance Evaluation Inspection
Eval Date:	10-25-2018
Violations Found:	Yes
Eval Type:	Routine done by local agency
Eval Notes:	On site to conduct a hazardous waste inspection at a new facility. Met with Imran Wagle, president, of Newlight Technologies. This facility uses biotechnology (SIC Code: 8731) to turn greenhouse gases into bioplastics. Upon review of the process, the facility reportedly cleans their reactor vessel using a caustic and acid rinse which are commingled in a batch tank. Per Mr. Wagle, the wastes are then discharged to sewer per their sanitation permit. Based on Health and Safety Code 25201.15, the facility is allowed to perform elementary neutralization as long as the waste streams are less than 10% acid/base by weight. Per Mr. Wagle, the following quantities are used to rinse the vessel: Caustic Rinse: 10 kg of 50% Sodium Hydroxide in 300 gallons of water Acid Rinse: 12 kg of acid in 300 gallons of water Upon review, these quantities are less than 10% acid/base by weight. Facility is exempt from tiered permitting regulations per HSC 25201.15. Walked through [Truncated]
Eval Division:	Orange County Environmental Health
Eval Program:	HW
Eval Source:	CERS,
Eval General Type:	Compliance Evaluation Inspection
Eval Date:	11-14-2022
Violations Found:	Yes
Eval Type:	Routine done by local agency
Eval Notes:	On site to conduct a routine Hazardous Waste (HW) inspection. Consent to inspect was granted by Jacob Dicioccio, EHS Manager and Ed Escalera, Chemical Response Team Lead. Also present was Ashley Acevedo of OCHCA. Walked throughout the facility and observed hazardous waste storage areas. - Manifests were available and reviewed. - Employees are reported to be trained. - Emergency plan is available on site. - No hazardous waste or universal waste observed in the dumpster/enclosure area. Discussed hazardous waste labeling laws and regulations with Mr. Dicioccio. A copy of this inspection report will be e-mailed to jdicioccio@newlight.com.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

The FINDS: database may contain additional details for this site.

Environmental Interest/Information System:

The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS), EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), and Toxic Release Inventory (TRI).

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

The FINDS: database may contain additional details for this site.

(RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

The FINDS: database may contain additional details for this site.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

The FINDS: database may contain additional details for this site.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

The FINDS: database may contain additional details for this site.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

The FINDS: database may contain additional details for this site.

Site History:	The California State Coastal Conservancy is considering a purchase of approximately 100 acres of Hellman Ranch for potential ecological restoration activities. The property has been used for oil production since the mid-1920s. The oil production and related activities at the site included: drilling and operation of oil wells; digging and usage of sumps; construction and usage of pipelines and petroleum storage tanks; and disposal of various types of debris into a landfill (the Dump Site), which was used from the 1950s to the mid-1970s. The investigated site is only the Dump Site, also known as the landfill area, of the proposed 100-Acre Wetlands Restoration Area. The Dump Site was used by the City of Seal Beach and the U.S. Army Corps of Engineers from 1952 to 1975, for disposal of construction materials and other debris. The waste in the Dump Site was characterized in 2006 by excavation of ten test pit trenches, two feet in width and up to sixteen feet in depth, and the installation of three groundwater monitoring wells. Site fill material was found to consist of layered sand, silt, clay and gravel (similar to native soil types), with chunks of concrete and asphalt of varying sizes. No clear marker was present to designate the bottom of the fill. Petroleum hydrocarbons, or oil, were discovered in a test pit at twelve to fourteen feet below ground surface, and in one groundwater monitoring well. In order to define the extent of the oil release and assess the potential impact to water quality from the dump, samples were collected from 22 direct-pust borings, and four additional groundwater monitoring wells were installed and sampled. The extent of the oil plume is approximately 100 feet wide by 500 feet long, and three to six inches thick, at a depth of 12 feet below ground surface. The oil appears to be crude oil, which was likely released from a pipeline that was formerly located beneath, west, and south of the dump area. The pipeline was connected to a former tank farm located just above the southeastern extent of the dump area. The pipeline and tank farm were removed sometime between 1954 and 1958.

HELLMAN RANCH - 100-ACRE WETLAND RESTORATION AREA (Continued)

S107473155

The contaminants of concern that were investigated were: volatile organic compounds; polycyclic aromatic hydrocarbons; semi volatile organic compounds; dissolved metals; and common cations and anions. California Toxics Rule criteria were used to screen potential groundwater and downgradient surface water impacts. The two upgradient monitoring wells indicated volatile organic compounds and dissolved metals concentrations above the screening criteria. The three downgradient and western upgradient monitoring wells had no concentrations exceeding the screening criteria. The general chemistry parameters were similar to the chemistry of seawater. These wells are located near inter-tidal drainage ditches that are located adjacent to the Dump Site. Modeling was performed, in an effort to evaluate the potential of migration of the crude oil plume. The model predicted the oil constituents to travel less than 600 feet in 35 years, and the polycyclic aromatic hydrocarbons to travel no more than 35 feet in 300 years. Based on the site assessment, we believe that the waste deposited at the Dump Site and the underlying crude oil spill will not pose a threat to the beneficial uses of the San Gabriel River Estuary and adjacent tidal wetlands, and groundwater in the Orange County Groundwater Management Zone.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

The FINDS: database may contain additional details for this site.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

The FINDS database may contain additional details for this site.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

The FINDS: database may contain additional details for this site.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

The FINDS: database may contain additional details for this site.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

The FINDS: database may contain additional details for this site.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

The FINDS: database may contain additional details for this site.

Environmental Interest/Information System:

All generators and treatment, storage, and disposal (TSD) facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years. The data collected is used to create the National Biennial Resource Conservation and Recovery Act (RCRA) Hazardous Waste Report. This data is processed within the RCRA Information (RCRAInfo) database. The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

The FINDS database may contain additional details for this site. Please contact your EDR Account Executive for more information.

in the macro etch area, 6 gallons of 49% HF in the QA/QC lab and 6 gallons of 49% HF in the micro etch area. Total maximum 49% HF would be 24 gallons. (The actual volume on site during the inspection was 21 gallons). 49% HF is under the CAL ARP regulations @ 100 lbs = 20 gallons. If this business exceeds 20 gallons of HF, it is subject to the CAL ARP regulations and you must complete a Risk Management Plan (RMP). Per Desagun, she will discuss this with management this week. It is Desagun's opinion that the business will elect to reduce the HF volume to below 20 gallons in order to not be subject to the CAL ARP program. You must immediately either develop an RMP or reduce the HF to below 20 gallons. Please notify this Agency ASAP with the management [Truncated]

Eval Notes: On site to conduct a follow up inspection to the LQG Hazardous Waste inspection conducted on 8/16/2021. Consent to enter and inspect granted by Al Mendoza, Senior Metallurgical Engineer. Also present was Brittney Eugenio, HMS I of OCHCA. Facility is a RCRA-Large Quantity Generator (RCRA-LQG). Facility generates the following waste streams:
- Mixed Acid Waste (HSO₄, HCl, and HNO₃) - Acid Covered Rags - Oily Grinding Sludge - Oily Water - Oily Debris/Absorbent - Process Water w/ Metals Facility has a Federal EPA ID #. - Walked perimeter and did not observe any signs of release. - SB-14 and employee training records were available for review during the 8/16/2021 inspection. Discussed emergency response plan requirements with Mr. Mendoza.
*Facility is a RCRA LQG and will be required to submit a biennial report for activities from calendar year 2021 (due by March 1, 2022).
**This facility is under review for regulation under APSA [Truncated]

1018274078

Waste Line Number: 1
U.S. DOT Hazardous Indicator: Y
U.S. DOT ID Number: UN3264
U.S. DOT Description: Un3264, Waste Corrosive Liquid, Acidic, Inorganic, N.O.S. (Nitric Acid, Hydrochloric Acid, Chromium) 8, Pgii
Non-Hazardous Waste Description: Not reported
Number of Containers: 2
Container Type Code: TP
Container Type Description: Portable tanks
Waste Quantity: 550
Quantity Unit of Measure Code: G
Quantity Unit of Measure Description: Gallons
Waste Quantity, in Tons: 2.293578
Acute Waste Quantity, in Tons: 0
Non-Acute Waste Quantity, in Tons: 2.293578
Waste Quantity, in Kilograms: 2080.344
Acute Waste Quantity, in Kilograms: 0
Non-Acute Waste Quantity, in Kilograms: 2080.344
Management Method Code: H010
Management Method Description: METALS RECOVERY
Waste Residue Indicator: N
Quantity Discrepancy Indicator: N
Waste Type Discrepancy Indicator: N
Waste Density: Not reported
Waste Density Unit of Measure Code: Not reported
Waste Density Unit of Measure Description: Not reported
Form Code: Not reported
Form Code Description: Not reported
Source Code: Not reported
Source Code Description: Not reported
Waste Minimization Code: Not reported
Waste Minimization Code Description: Not reported
Consent Number: Not reported
EPA Waste Indicator: Y
Federal Waste Codes: D002, D007
Quantity Haz Kg: 2080.344
Quantity Haz Tons: 2.293578
Quantity Non Haz Kg: 0
Quantity Non Haz Tons: 0
State Waste Codes: CA-792

Environmental Interest/Information System:

The Integrated Compliance Information System (ICIS) provides a database that, when complete, will contain integrated enforcement and compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions and a subset of the Permit Compliance System

(PCS), which supports the National Pollutant Discharge Elimination System (NPDES). This information is maintained in ICIS by EPA in the Regional offices and it at Headquarters. A future release of ICIS will completely replace PCS and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities that support compliance and enforcement programs, including incident tracking, compliance assistance, and compliance monitoring.

The National Pollutant Discharge Elimination System (NPDES) module of the Integrated Compliance Information System (ICIS). Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

The Department of Labor, Occupational Safety and Health Administration information system consists of inspection case detail for approximately 100,000 OSHA inspections conducted annually. The FRS dataset includes facilities that had inspections within the last 7 years within the mining, oil and gas, utilities, and manufacturing sectors.

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

The FINDS: database may contain additional details for this site.

Eval Notes:

On site to follow-up on a complaint regarding an alleged illegal disposal of hazardous waste. Met with John Maligie, VP of Manufacturing, who gave consent to conduct the inspection. Thomas Malter, R&D Manager, and Brian Driskill, General Manager, were also present. Discussed and explained the nature of the complaint alleging the illegal disposal of methylene chloride via evaporation in a fume hood. Per Mr. Maligie, the incident occurred as follows: Mr. Malter instructed a lab technician to pour methylene chloride on a pan to dispose of it under a fume hood via evaporation on June 19th, 2018. Mr. Maligie stated that approximately 1/3-1/2 gallons of methylene chloride were poured on the pan and evaporated. Once the quality manager found out about the incident, he instructed Mr. Malter to remove the methylene chloride bottle from the lab. The bottle was taken and placed in a lab pack to be disposed via a hazardous waste hauler. Per Mr. Malter, the methylene chloride [Truncated]

Violations:

Site ID: 525687
Site Name: Airtech International Incorporated
Violation Date: 03-13-2018
Citation: 2014-0057-DWQ - Industrial General Permit
Violation Description: SW - Failure to meet NEC criteria
Violation Notes: Industrial materials stored in an outside area and exposed to storm water, including a forklift battery, scrap metal, and a waste bin without a proper lid. Open waste containers that were overfilled with cardboard, foam debris and waste material stored outdoors near the shipping and receiving area. Industrial and residual materials in the form of plastic resin pellets were noted throughout the grounds of the shipping and receiving area. Plastic resin pellets were also observed on the loading dock and around the outer landscaped perimeter. Industrial material (e.g. plastic resin pellets) were observed in the engineered storm water perimeter conveyance that flows toward one of the onsite storm water drains at the facility.
Violation Division: Water Boards
Violation Program: INDSTW
Violation Source: SMARTS,

Evaluation:

Eval General Type: Compliance Evaluation Inspection
Eval Date: 03-01-2019
Violations Found: No
Eval Type: Industrial Storm Water Compliance Evaluation
Eval Notes: Regional Board Staff conducted a compliance inspection for the above facility on March 1, 2019. Staff met with Mr. Thomas Malter, Safety Coordinator. The facility switched from a NEC permit to a NOI permit on January 10, 2019. The SWPPP was reviewed and was up to date. Training records were available from January 2019. The facility collected 2 stormwater samples in January and all parameter results were under the NAL values. Mr. Malter stated they would be uploading the results to SMARTS as Ad Hoc Reports. A site walk was then conducted. Housekeeping is conducted daily using a vacuum. Plastic resin pellets were not observed around the facility, as stated in the inspection report dated July 19, 2018. A permanent storm-resistant shelter was installed over the roll-off bins in the shipping and receiving area. The inspection report, dated July 19, 2018, discussed plastic resin pellets observed in the landscaped area along the outer perimeter of the facility. Mr. Malter stated they poured concrete and closed off the outer perimeter landscaping. A 0.8mm mesh screen was installed over both storm drain inlets at the facility. The plastic resin pellet storage silos have newly installed guard rails. All loading and unloading of material to the silos are conducted indoors. No violations were observed during the inspection.

Eval Division: Water Boards
Eval Program: INDSTW
Eval Source: SMARTS,

Eval General Type: Compliance Evaluation Inspection
Eval Date: 03-13-2018
Violations Found: Yes
Eval Type: Industrial Storm Water Compliance Evaluation
Eval Notes: USEPA staff conducted a joint inspection with Regional Board staff of the above facility on March 13, 2018. Staff observed industrial

materials stored in an outside area and exposed to storm water, including a forklift battery, scrap metal, and a waste bin without a proper lid. Open waste containers that were overfilled with cardboard, foam debris and waste material stored outdoors near the shipping and receiving area. Industrial and residual materials in the form of plastic resin pellets were noted throughout the grounds of the shipping and receiving area. Plastic resin pellets were also observed on the loading dock and around the outer landscaped perimeter. Industrial material (e.g. plastic resin pellets) were observed in the engineered storm water perimeter conveyance that flows toward one of the onsite storm water drains at the facility. Facility currently does not meet the NEC criteria and thus is in violation of the IGP. (Photographs 15-17). Plastic resin pellets found at the opening of the onsite storm drain without the permit-required capture BMPs necessary to prevent plastic pellets from discharging with industrial Stormwater.

Eval Division: Water Boards
Eval Program: INDSTW
Eval Source: SMARTS,

Eval General Type: Compliance Evaluation Inspection
Eval Date: 11-17-2016
Violations Found: No
Eval Type: Industrial Storm Water Compliance Evaluation
Eval Notes: Regional Water Board staff (staff) conducted a No Exposure Certificate (NEC) inspection on the above facility on November 17, 2016. The facility had no industrial equipment or material exposed to storm water. The facility's current condition meets the criteria as defined in the Industrial General Permit, NEC. No further action is required.

Eval Division: Water Boards
Eval Program: INDSTW
Eval Source: SMARTS,

Eval General Type: Case Development Inspection
Eval Date: 07-19-2018
Violations Found: No
Eval Type: Industrial Storm Water Enforcement Follow-up
Eval Notes: USEPA staff conducted a joint inspection with Regional Board staff of the above facility on July 19, 2018. Staff again observed issues regarding their newly installed storm drain inlet BMPs and fugitive plastic pellets observed throughout the facility. Facility still does not meet the NEC criteria and thus is in violation of the IGP.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

The FINDS: database may contain additional details for this site.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

The FINDS: database may contain additional details for this site.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

The FINDS database may contain additional details for this site.
Please contact your EDR Account Executive for more information

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

The FINDS: database may contain additional details for this site.
Please contact your EDR Account Executive for more information

Site Name: Rocker Industries
Violation Date: 12-21-2022
Citation: 40 CFR 1 262.34(d)(5)(iii) - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 262.34(d)(5)(iii)

Violation Description: Failure to ensure that all employees are thoroughly familiar with proper waste handling and emergency procedures, relevant to their responsibilities during normal facility operations and emergencies.

Violation Notes: Employees are not thoroughly familiar with proper waste handling procedures.

Violation Division: Orange County Environmental Health
Violation Program: HW
Violation Source: CERS,

Site ID: 567991
Site Name: Rocker Industries
Violation Date: 11-04-2021
Citation: HSC 6.95 25505(a)(4) - California Health and Safety Code, Chapter 6.95, Section(s) 25505(a)(4)

Violation Description: Failure to provide initial and annual training to all employees in safety procedures in the event of a release or threatened release of a hazardous material or failure to document and maintain training records for a minimum of three years.

Violation Notes: Returned to compliance on 03/08/2022. Training documentation unavailable upon inspection.

Violation Division: Huntington Beach Fire Department
Violation Program: HMRRP
Violation Source: CERS,

Site ID: 567991
Site Name: Rocker Industries
Violation Date: 11-04-2021
Citation: HSC 6.95 25508(a)(3) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(3)

Violation Description: Failure to complete and electronically submit hazardous material inventory information for all reportable hazardous materials on site at or above reportable quantities.

Violation Notes: Returned to compliance on 03/08/2022. Updates required to hazardous material inventory. Modify inventory items and quantities to reflect current operations. During inspection, the following was observed: Handy flux 30 lb plastic buckets x 8, Branco 922 55 gal x 2, Mc-iso way lube 68 55 gal x 2, Metex m 629 400 lb, Arrowcool me 347 55 gal, A. G. layne low vapor pressure solvent 55 gal, Isopropyl alcohol 55 gal x 2, Arrowlube 602 hydraulic oil 55 gal, Dirty alcohol 55 gal x 5,

Violation Date:	12-21-2022
Citation:	HSC 6.5 25123.3(h)(1) - California Health and Safety Code, Chapter 6.5, Section(s) 25123.3(h)(1)
Violation Description:	Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met: (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms. (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f). (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.
Violation Notes:	Observed the following hazardous wastes stored past the allotted 180 day accumulation time frame: - 5-gal container of Waste Acetone (dated 2/2/2022) located in the Valve Room. - 5-gal container of Flux Off (dated 1/31/2022) located in the Chemical Room.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

The FINDS: database may contain additional details for this site.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

The FINDS: database may contain additional details for this site.
Please contact your EDR Account Executive for more information

Violations:

Site ID: 544535
Site Name: Tolemar LLC
Violation Date: 02-08-2019
Citation: 2014-0057-DWQ - Industrial General Permit
Violation Description: SW - Failure to meet NEC criteria
Violation Notes: Regional Board staff conducted a No Exposure Certification (NEC) inspection of the above facility on February 8, 2019. Staff noted boxes plastic wrapped on a pallet near an open topped dumpster. In addition, multiple stacks of pallets and dumpster containers were noted at the time of the inspection. Therefore, this facility is currently in violation of the NEC requirements as set forth in the Industrial General Permit. The Legally Responsible person will be notified of the violations. The facility will be given until Monday, February 18, 2019 to come into compliance. If evidence is not provided by said deadline, the Regional Board will deny NEC coverage and issue a Notice of Non-Compliance.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

The FINDS: database may contain additional details for this site.

Violation Description: 6.5, Section(s) 25123.3(h)(1)
Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met: (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms. (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f). (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.

Violation Notes: Returned to compliance on 06/21/2021. OBSERVATION: Owner/Operator is a small quantity generator and failed to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles), or has failed to comply with the conditions of CCR 66262.34(d) and has stored hazardous waste over 90 days. CORRECTIVE ACTION: Dispose of hazardous waste that has been stored over the applicable time limit and provide documentation that the violation has been corrected.

Violations Found: No
Eval Type: Other, not routine, done by local agency
Eval Notes: declined facility info in CERS The submittal was declined, please make the following changes and resubmit within 30 days; 1. our records indicate that you also generate hazardous waste, on the business activity page, also check 'yes' to hazardous waste generation.

Eval Division: Orange County Environmental Health
Eval Program: HW
Eval Source: CERS,

Eval General Type: Compliance Evaluation Inspection
Eval Date: 06-03-2021
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: On site to conduct a routine hazardous waste inspection. Met with Sharmon Herzog of Tri Models Inc. Consent was provided to enter and conduct inspection activities. The following was observed on this date: -- Hazardous waste generated was properly stored and labeled. -- Waste manifests were available for review. Manifests are provided electronically by the hauler. -- The containers storing oil were observed full and past the accumulation time frame. Please schedule this waste to be hauled off by a registered hauler. Send this agency verification that this has been completed. -- Annual hazardous waste training has not been conducted. Please complete training for those employees that handle hazardous waste. Send this agency employee sign-in sheets once this is completed. -- Perimeter of the facility was inspected. Did not observe any indication of a hazardous waste release or illegal dumping along the perimeter of the facility.

Eval Division: Orange County Environmental Health
Eval Program: HW
Eval Source: CERS,

Eval General Type: Compliance Evaluation Inspection
Eval Date: 09-12-2014
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: "Esubmit - 4/8/14 3-month safety training by consultant No stormdrains. Owns the building. ** Add evacuation location with star on map for next submission"

Eval Division: Orange County Environmental Health
Eval Program: HMRRP
Eval Source: CERS,

Eval General Type: Compliance Evaluation Inspection
Eval Date: 05-02-2014
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: On site to conduct an annual routine Hazardous Waste Inspection. Met with Sharmon and Jeff who explained the process, escorted me through the site and gave consent to enter/inspect. Facility contains: EDM Filters, coolant and parts washer Hazardous waste containers are properly labeled and covered. Documents Available for review: 1. Hazardous waste Manifest/Receipts (keep a copy on site for three years). - Note: A copy of the federal manifest must be sent to DTSC. (Department of Toxic Substances Control, P.O. Box 400, Sacramento, CA 95812-0400). 2. Hazardous Waste Emergency Response information.

FINDS:
Registry ID: 110070086424

[Click Here for FRS Facility Detail Report:](#)

Environmental Interest/Information System:

The National Pollutant Discharge Elimination System (NPDES) module of the Integrated Compliance Information System (ICIS). Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

The FINDS: database may contain additional details for this site.

CERS Description: Chemical Storage Facilities

Violations:

Site ID: 408516
Site Name: DIX METALS INC
Violation Date: 07-13-2017
Citation: 22 CCR 12 66262.20 - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.20
Violation Description: Failure to prepare a Uniform Hazardous Waste Manifest and, if necessary, a Continuation Sheet, before the transport of a hazardous waste off-site for transfer, treatment, storage, or disposal.
Violation Notes: Returned to compliance on 12/20/2017. After further research it has been determined that this facility is using the incorrect EPA ID number. Your correct EPA ID Number is CAL000358038. Please cease the use of CAR000148296 immediately. To abate this violation write a correction letter to DTSC send a copy of the letter to this agency. Correction letter: Manifest number; Shipment date; Generator EPA ID number; Manifest Item number; Corrected information; Signature, title, mailing address, and phone number. Eval Notes: On site to conduct a routine hazardous waste inspection. Met with manager David Nutter of Dix Metals. Consent was provided to enter and conduct inspection activities. The following was observed on this date: -- Hazardous waste generated was properly stored and labeled. Waste generated is hydraulic oil from the water jet machines. The facility also has mud containing sand grit and metals to the landfill for disposal. Per Mr. Nutter, this media is not hazardous waste. Please send me a copy of the waste analysis of the sand grit waste in order to verify that this is not hazardous for metals. -- Waste manifests for all waste streams were available for review. -- Perimeter of the facility was inspected. Did not observe any indication of a hazardous waste release or illegal dumping along the perimeter of the facility. The facility is in compliance.

Eval Notes: On site to conduct a routine Hazardous Waste (HW) inspection. Consent to inspect was granted by Mike Medeiros, Plant Manager. Waste generated is hydraulic oil from the water jet machines and oily absorbent waste. The facility also generates swarf cake containing sand grit and metals that are sent to the landfill for disposal. Per Mr. Medeiros, this media is not hazardous (2004 lab results). Please keep a copy of lab results on site or re-test to ensure the waste is still non-hazardous. Hydraulic oil waste mixed with water is accumulated in a sump at the back of the facility which is run through an evaporator to remove water. Remaining waste oil is pumped out of sump for proper disposal by Safety-Kleen. This facility is under review for regulation under the Tiered Permitting Conditionally Exempt program. Walked throughout the facility and observed hazardous waste storage areas. - Manifests were available and reviewed. - Employees are reported to be trained. - Emergency plan was pro

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

The FINDS: database may contain additional details for this site.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste. California's Hazardous Waste Tracking System Data Mart (HWTS-DATAMART) provides information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

The FINDS: database may contain additional details for this site. Please contact your EDR Account Executive for more information

Eval Notes:	On site to conduct a routine hazardous waste inspection. Met with Steve DeCoite of Metri Tech. Consent was provided to enter and conduct inspection activities. The following was observed on this date: -- Hazardous waste generated was properly stored and labeled. -- Waste manifests were available for review. Manifests are provided electronically by the hauler. -- Annual hazardous waste training is conducted via quarterly safety meetings. Employee sign-in sheets were available for verification. -- Perimeter of the facility was inspected. Did not observe any indication of a hazardous waste release or illegal dumping along the perimeter of the facility. The facility is in compliance.

Eval Notes: On site to conduct an annual routine Hazardous Waste Inspection. Met with AI who explained the process, escorted me through the site and gave consent to enter/inspect. Facility contains: 3-55 gallon drums of used coolant Hazardous waste containers are properly labeled and covered. All containers storing hazardous waste must be labeled with the following information: 1. The words HAZARDOUS Waste 2. Waste (name) 3. Hazardous property of the waste (e.g. toxic, flammable, corrosive, etc.) 4. Physical state of the waste (liquid or solid) 5. Name and address of the business. 6. Accumulation date (date the first drop of waste has been placed in container) Documents Available for review: 1. Hazardous waste Manifest/Receipts (keep a copy on site for three years). - Note: A copy of the federal manifest must be sent to DTSC. (Department of Toxic Substances Control, P.O. Box 400, Sacramento, CA 95812-0400). 2. Hazardous Waste Emergency Response [Truncated]

Eval Notes: declined facility info in CERS The submittal was declined at this time, please make the following changes and resubmit within 30 days; 1. on the business activities page, you have listed that you have 1320 gallons or more of petroleum based product storage in aboveground tanks 55 gallons and larger. You have also not disclosed this on your materials page, possibly indicating that you do not have 1320 gallons or more of petroleum aboveground storage. Please check this, and if you do not, then place a "no" on the business activities page under above ground storage of petroleum products over 1320 gallons. Research and resubmit within 30 days. 2. on the business activities page, also mark "yes" in the box indicating you generate hazardous waste.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

The FINDS: database may contain additional details for this site.

Environmental Interest/Information System:

The Toxic Release Inventory System (TRIS) is a publicly available EPA database reported annually by certain covered industry groups, as well as federal facilities. It contains information about more than 650 toxic chemicals that are being used, manufactured, treated, transported, or released into the environment, and includes information about waste management and pollution prevention activities.

The FINDS: database may contain additional details for this site.
Please contact your EDR Account Executive for more information

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Business type: O
Preparer other function: 10 day in-transit facility

Description of Events:

On 6/21/07, a 55 gallon open top metal drum containing a mixture of solvents was identified as leaking while at the Veolia Huntington Beach 10 day in-transit location. A small leak was noticed through the trailer in which this material was loaded and was awaiting further transportation to its final destination. Immediately upon discovery action was taken to mitigate the release by using oilsorb material to prevent the spread of the release. The container had leaked approximately less than 1 gallon of liquid on the trailer floor. A pinhole leak was observed on the outer body of this metal drum. The drum was carefully placed on its side with the pinhole facing up and was packed into a "SALVAGE" container, an 85 gallon poly overpack. The spilled material on the floor of the trailer was cleaned up using oilsorb, rags and was decontaminated as well.

Recommendations/Actions Taken to Prevent Future Incidents:

This leak was the result of combining various solvents that are believed to hold corrosive properties which contributed to the container failure. It is very important to ensure appropriate containers are used for the chemicals being packaged even though this was an

authorized container under the DOT packaging standards for the hazard class and the proper shipping name. In the future, corrosion tests of the liquid being poured into the drum must be done before combining various solvents.
