Subject: Comments for 4/13/21

Attention: This email originated from outside the County of Orange. Use caution when opening attachments or links.

Greetings Leon

Here are my comments that I am asking you to once again read into the record since I continue to shelter in place at the direction of my doctors due to my health issues.

I hope you develop better protocols in your meeting space as well as explore ways to bring our actual voices into the room.

Thank you

Pat Davis

Agenda 26

Numerous contract extensions again appear here and are targeted at Homeless Emergency Aid Program services for various providers. So much money has come through the County and our unhoused folk are not fairing well. Where is the housing? You continue to fund Congregate Shelters that seldom lead to permanent affordable housing. Where is the housing? Encampments are growing and your providers best practices seem to involve law enforcement. Where is the housing?

It is so disappointing to see such little progress in actual numbers of folk placed in housing. Their own housing. Not a shared bedroom. Not a group living arrangement. Not a shelter.

Over the last few months many advocates have asked for support for El Centro Cultural de México in their plight to serve those on the streets of Santa Ana who have sought refuge on their property. Why would the city not help early on with trash pick up, sanitation and bring services on site to facilitate the needs as presented? Why would the county not step in since so many of their arrivals were from the courtyard and other failed experiences the county funds? Project Room key was meant for this population. The money has been there and FEMA is reimbursing at 100%. I can't wait to hear how much of a success story you try to paint for Room key, Home key and Tool belt efforts. The numbers truly assisted and now in permanent housing are abysmal for the monies used and available.

You need to step up now and support this community centered group who have done everything in their power to get help and have been continuously bullied in the process.

For the population there now you need to offer spaces in the Roomkey/Toolbelt Program for those who are at "high risk" with health complications.

Why have they not been vaccinated? How hard can it be to provide Johnson and Johnson (one-time) vaccines for those at the Centro Cultural de México and any other unhoused folks?

Create a path that allows Centro Cultural de Mexico and local organizations to refer the unhoused directly to programs targeting their needs. Training those where relationships and trust exist could greatly improve your success ratio.

This all magnifies the ongoing and now more urgent need for your leadership in funding long term solutions for affordable housing for all. Housing insecurity in Orange County impacts every community. Now, during the 6th cycle of Housing Element work, you could be a model and create a plan to meet your own RHNA numbers in the low, very low and extremely low income groups. Support identifying funding sources and offer up a bond measure to support affordable housing builds in the county. And if you are looking at land to meet your unincorporated area numbers, might I suggest the Musick Jail site?

Agenda item 28

The deaths continue to add up. I am sure today your comments will praise how well the county has managed their COVID response and deaths are down.

Unfortunately that is not true for those who are unhoused on the streets of OC. The numbers compared to those who died last year are once again almost doubled this March 2021. Your county operated system of care is failing the most vulnerable once again.
