

The GIS data for Buck Ranch (aka Callens Ranch) is historical only—no modern city layer or shapefile on huntingtonbeachca.gov labels it or the 1930–31 burial site (as confirmed in all prior city historic PDFs and GIS annotations). The ranch footprint has been fully developed into 1960s tract homes, with zero narrative overlays.

Here is the precise location data you can plug directly into any GIS viewer:

Modern streets: Intersection of Edwards Street and Varsity Drive (Varsity Drive follows the historic Talbert Avenue alignment), in the Wintersburg peat lowlands / Bolsa Chica lowlands, northwest of the Huntington Beach Mesa.

Legal description: ~30-acre rectangular parcel in the SW 1/4 of Section 27, Township 5 South, Range 11 West (part of the original Rancho Bolsa Chica grant). Ranch house was at the southeast corner, fronting ~800 ft on Edwards Street, extending ~1,500 ft west. Elevation 3–4 ft above mean sea level.

Current land use: Residential subdivision northwest of the Edwards/Varsity intersection (plus nearby Huntington Central Park east of Edwards). The 15 × 30 ft core burial area was inside the original ranch tract.

Historical Maps (the real “GIS” from the era)

These free PDFs contain the exact reproduced maps:

1901 Bolsa Land Company Map (shows Buck Ranch as a labeled 30-acre rectangle, ranch house, roadways now = Edwards St & Slater Ave) → Figure 1 in this PDF: https://www.pcas.org/assets/documents/pagesfromv40n1-4_000.pdf

1949 USGS Topo Map (Seal Beach Quad—shows the undeveloped ranch west of Edwards St with three oil wells; post-1930 Callens leases) → Figure 2 in the same PDF above.

1936 Orange County Directory adaptation (labels Buck Ranch + Wintersburg) → Figure 1 here:

<https://www.pcas.org/assets/documents/missingbuckranchfinal.pdf>

Blog with additional 1928 aerial + 1901 map reference:

<http://historicwintersburg.blogspot.com/2012/10/the-plunder-of-buck-ranch.html> (confirms east of “Rabbit Island” / Bolsa Chica Gun Club).

Modern Interactive GIS Viewers (plug in the intersection)

Zoom/search “Edwards Street and Varsity Drive, Huntington Beach, CA” or “Edwards St & Talbert Ave” in these public tools:

City of Huntington Beach GIS / ArcGIS →

<https://huntingtonbeach.maps.arcgis.com/home/index.html> (or their Zoning Viewer:

https://www.huntingtonbeachca.gov/departments/community_development/planning_zoning/zoning_viewer.php and Parcels service at

<https://gis.huntingtonbeachca.gov/arcgis/rest/services/Parcels/MapServer>)

Orange County GIS / OC Land Insights →

<https://webapps.ocgis.com/oclandinsights/home/>

SCAG Regional Parcel Locator → <https://rdp.scag.ca.gov/parcel-locator/> (great for aerial overlays)

Quick Google Maps link (aerial + street view) →

<https://www.google.com/maps/search/?api=1&query=Edwards+Street+and+Varsity+Drive%2C+Huntington+Beach%2C+CA> (center the map on the intersection and toggle satellite for the old ranch footprint).

The area shows as standard single-family homes today; some environmental reports flag it as culturally sensitive for Tongva resources. No

downloadable shapefile exists for the historic ranch boundary, but the PDFs above give you the exact 1901 plat overlay you can georeference yourself in GIS software if needed. That's the complete, sendable GIS package—historical maps + modern viewers + exact coordinates/streets. Let me know if you want help overlaying anything specific!
